through narratives which repeatedly position white women at the centre of the story from the women's liberation movement in the 1970s to today. Analysing the ways in which whiteness continues to pervade feminist literature as well as feminist debates in the liberal media, Jonsson demonstrates that despite an increased attention to race intersectionality and difference, stories told by white feminists are shaped by their desire to maintain an innocent position towards racism.

The Anaemic Leukaemic John Fee, 2010-08-19

The first half of the book explains that the treatment is a brutal regime but there are light-hearted moments. In the second half of the book, the author describes what he learned about cancer such as what cancer is, the prevalence of cancer, the role of the pharmaceutical industry and how cancer is treated in the West as compared to complementary therapies in the East. He asks 'Why me' and discovers physical, mental and spiritual reasons to explain why cancer decided to pay him a visit. The concept of miraculous or spontaneous remissions appears to be largely ignored by the medical profession but is a major interest to the author along with other healing methods outside the Western orthodox model. The book finishes with a message of hope through the development of a Simple Man's Cancer Model which provides a framework for healing to take place based on personal experience, studying spontaneous healings, a large dose of common sense and a sprinkling of anecdotal evidence. The author suggests that certain changes need to take place within an individual for healing to occur. How the person makes those changes is a personal choice as there are numerous healers, books, workshops and seminars where such information and healing can be obtained. The final chapter suggests that Integrated Healthcare could be the next step forward and invites the reader to imagine and more importantly help to create a world without cancer.
