Structuring Politics Sven Steinmo, Kathleen Thelen, Frank Longstreth, 1992-09-25 These essays demonstrate how the historical institutional approach to the study of politics reveals the nature of institutional change and its effect on policy making

State Power Bob Jessop, 2013-04-26 Bob Jessop presents an up to date account of his distinctive approach to the dialectics of structure and strategy in the exercise of state power While his earlier work critically surveys other state theories this book focuses on the development of his own strategic relational approach It introduces its main sources outlines its development applies this approach to four case studies and sketches a strategic relational research agenda Thus the book presents a comprehensive theoretical statement of the approach and guidelines for its application Key features of the book include an account of the authors theoretical development a review of recent developments in state theory and the cultural turn in political economy critical strategic relational re readings of major state theorists Marx on political representation Gramsci on the spatiality of state power Poulantzas on the state as a social relation and the later Foucault on statecraft applications of the strategic relational approach to important issues concerning the contemporary state its gendered selectivity the future of the national state the states temporal sovereignty and the relevance of multi scalar meta governance in Europe for the more general future of the state The book concludes with recommendations for future

Social Rights in the Welfare State Toomas Kotkas, Kenneth Veitch, 2016-12-08 At a time when the future of the welfare state is the object of heated debate in many European countries this edited collection explores the relationship between this institution and social rights Structured around the themes of the politics of social rights questions of equality and social exclusion inclusion and the increasing impact of market imperatives on social policy the book explores the effect of transformations in the welfare state upon social rights and their underlying rationalities and logics Written by a group of international scholars many of the essays discuss a number of urgent and topical issues within social policy including the social rights of asylum seekers the increasing marketization and consumerization of public welfare services the care of the elderly and the obligation to work as a condition of access to welfare benefits International in its scope and interdisciplinary in its approach this collection of essays will appeal to scholars and students working in the fields of law and socio legal studies sociology social policy and politics It will also be of interest to policy makers and all those engaged in the debate over the future of the welfare state and social rights *Against Austerity* Richard Seymour, 2014-03-19 Five years into capitalism's deepest crisis which has led to cuts and economic pain across the world *Against Austerity* addresses a puzzling aspect of the current conjuncture why are the rich still getting away with it Why is protest so ephemeral Why does the left appear to be marginal to political life In an analysis which challenges our understanding of capitalism class and ideology Richard Seymour shows how austerity is just one part of a wider elite plan to radically re engineer society and everyday life in the interests of profit consumerism and speculative finance But *Against Austerity* is not a gospel of despair Seymour argues that once we turn to face the headwinds of this new reality dispensing with reassuring dogmas we can forge new collective resistance and alternatives to the current system Following Brecht *Against Austerity* argues that the good old things are over it's time to confront the bad new ones **Millennial Dreams** Paul Smith, 1997-05-17 What are the implications for culture and politics for possible globalization Paul Smith demystifies much of the controversy and offers searching analyses of a series of cultural phenomena that have emerged in Germany Britain and the United States during the 1990s *Scoundrels and Shirkers* Jim Silver, 2023-06-11T00:00:00Z *Scoundrels and Shirkers* examines the deep relationship between capitalism and poverty in England since the 12th century It exposes the dynamics of capitalism from its origins in the long transition from feudalism to its current crisis under neoliberal capitalism in producing poverty The book unique in the historical breadth of its focus shows conclusively that poverty is an inevitable consequence of capitalism In the search for profits and control of society's economic surplus capitalism expands adapts and innovates producing not only commodities and wealth but also and necessarily poverty With the partial but important exception of the 1945-51 period and to a lesser extent the time between 1906 and 1914 there has never been a serious attempt to solve poverty Efforts have always been to manage

and control the poor to prevent them from starving or rebelling to punish and blame them for being poor and to force them into poverty level jobs Any real solution would require the logic of capitalism to be deeply disrupted While possible in theory such a change will require massive social movements Religion, Theology and the Human Sciences Richard H.

Roberts,2002 Religion Theology and the Human Sciences explores the religious consequences of the so called end of history and triumph of capitalism as they have impinged upon key institutions of social reproduction in recent times The book explores the imposition of managerial modernity upon successive sectors of society and shows why many people today feel themselves to be oppressed by systems of management that seem to leave them no option but to conform Richard Roberts seeks to challenge and outflank such seamless oppressive modernity through reconfiguration of the religious and spiritual field *Doing Time* R. Matthews,1999-07-09 This book is designed to acquaint students with some of the main issues

associated with the emergence and development of the modern prison It draws on a range of sociological theorising in order to analyse the organisation and the functioning of the prison It examines the conditions for the expansion of the prison and explores the possibilities for limiting prison use through the development of alternatives to custody In particular it looks in some detail at the relation between imprisonment and class age gender and race **Universal Difference** K.

Nash,1997-10-29 The author argues that rather than seeing liberalism as exclusionary of women s specificity as many contemporary feminists do we should look at variations in liberalism and in particular at its democratisation in the nineteenth century and at how feminists have used liberalism as a resource Liberalism is analysed using a post structuralist theory of hegemony texts of liberal political philosophy are deconstructed to show how the term women is used as an undecidable in the Derridean sense to produce the opposition between feminine private and masculine public spheres these texts are then linked to liberal democratic social and political practices including feminism as a social movement **Social Democracy**

and Labour Market Policy Knut Roder,2003-12-08 This topical study reflects on problems faced by social democratic parties in government when espousing policies of severe pragmatism and fiscal prudence and provides a perspective to both parties changes in labour market policies Global Finance and Urban Living Leslie Budd,Sam Whimster,2005-07-28 This incisive inter disciplinary text provides a major contribution to the study of finance capital and the metropolis It is the first authoritative account of the momentous changes in the organisation of finance capital that occurred in the 1980s But it never contents itself with a mere record of events Changes in finance are scrupulously and consistently related to changes in urban forms notably metropolitan lifestyles and aesthetics **Power in Politics and Academia in Jonathan Coe's Novels**

Denisa Dumitrascu,2018-04-18 This book explores the intricate manifestations of contemporary power its related ideology and the resistance and reaction to the dominant discourse in Jonathan Coe s political fiction covering the dismantling of the British social democratic consensus Thatcherism and Blairism up to the new ideology of Globalism Beyond the predictable dichotomy of support opposition to power the book argues the modern individual seems to have found another ontological

approach for which it coins the concept of intentional unpower Furthermore it demonstrates that there are three possibilities regarding the evolution of this type of social response and invites the readers to discover them while enjoying Coe s subtlety and humour Given its broad approach the book will appeal to researchers in a wide range of domains including literary and cultural studies political theory and sociology as well as any reader fascinated with the essence of power intellectual response and discourses containing their own elements of subversion The Contemporary British Novel Since 1980 James Acheson,S.
