*Conversing with Barth* John C. McDowell, Mike Higon, 2021-11-18 Karl Barth addressed all the major themes of dogmatic theology and in so doing made his own distinctive contribution to each of the ongoing conversations that constitute that theology This book presents important new conversations with Barth by leading contemporary theologians and Barth scholars Each contributor offers their own distinctive emphasis to bring to light the ways in which the depths of Barth s work may illuminate or be illuminated by the work of other prominent thinkers who preceded or followed him The conversations they host between Barth and other philosophers and theologians raise critical questions in the reading and appreciation of Barth s thought and explore a wide range of themes in dogmatic theology This book not only adds to the comprehension of the riches of Barth s theology but also presents an important contribution to the ongoing conversations and debates alive in theology today Contributors Nicholas Lash John Webster Timothy Gorringer Graham Ward George Hunsinger Ben Quash Mike Higon John McDowell Eugene Rogers Katherine Sonderegger David Clough David Ford     The Defeat of Satan Declan Kelly, 2022-01-27 This book offers an innovative critical and constructive exploration of Barth s theology one which demonstrates the radicality of his thought and which underscores the continued contribution he might make to theological reflection on a central element of the Christian tradition Declan Kelly uncovers the promise of viewing Barth s account of salvation as a three agent drama a drama involving God humanity and anti God powers Kelly demonstrates and examines Barth s cosmological portrayal of God s saving event as a defeat of the lordship of Satan in the cosmos and bound up with this as an ending of God s left handed activity and as the bringing into existence of a new creation under the rule of God s right hand Barth s doctrines of election the atonement and the resurrection receive a fresh reading as the book explores his apocalyptic grasp of God s eschatological deed of salvation and as it puts forward the claim with and against Barth that the climax of this deed of salvation is best located in the event of God s raising of Christ from the dead     **Rebel Rebel** Chris O'Leary, 2015-03-27 David Bowie every single song Everything you want to know everything you didn t know David Bowie remains mysterious and unknowable despite 45 years of recording and performing His legacy is roughly 600 songs which range from psychedelia to glam rock to Philadelphia soul from avant garde instrumentals to global pop anthems Rebel Rebel catalogs Bowie s songs from 1964 to 1976 examines them in the order of their composition and recording and digs into what makes them work Rebel Rebel is an in depth look at Bowie s early singles and album tracks unreleased demos session outtakes and cover songs The book traces Bowie s literary film and musical influences and the evolution of his songwriting It also shows how Bowie exploited studio innovations and the roles of his producers and supporting musicians especially major collaborators like Brian Eno Iggy Pop and Mick Ronson This book places Bowie s music in the context of its era Readers will discover the links between Kubrick s 2001 and Space Oddity how A Clockwork Orange inspired Suffragette City The pages are a trip through Bowie s various lives as a young man in Swinging London a Tibetan Buddhist a disillusioned hippie a rock

**On the Ethical Imperatives of the Interregnum** William V. Spanos, 2017-01-17 This book is an autobiographical meditation on the way in which the world's population has been transformed into a society of refugees and migrants seeking indeed demanding an alternative way of political belonging Focusing on the interregnum we have precariously occupied since the end of World War II and especially after 9/11 it constitutes a series of genealogical chapters that trace the author's journey from his experience as a prisoner of war in Nazi Germany to the horrific fire bombing of Dresden in February 1945 In doing so it explores his search for an intellectual vocation adequate to the dislocating epiphany he experienced in bearing witness to these traumatising events Having subsequently lost faith in the logic of belonging perpetuated by the nation state Spanos charts how he began to look in the rubble of that zero zone for an alternative way of belonging one in which the old binary whose imperative was based on the violence of the Friend-enemy opposition was replaced by a paradoxical loving strife that enriched rather than negated the potential of each side The chapters in this book trace this errant vocational itinerary from the author's early undergraduate engagement with Kierkegaard and Heidegger to Cornel West moving from that disclosive occasion in the zero zone to this present moment A Dictionary of the English Language Samuel
