

12th Grade CHECKLIST

for Students Applying to a Four-Year College or University

This checklist references sections found in the Postsecondary Education Planning Guide for Adults Supporting California's Foster Youth. Visit jbay.org/resources/ed-planning-guide/ to access the complete guide.

Depending on a youth's goals and when they start preparing for postsecondary education, some of these steps may not apply. The checklist below includes the steps for all different types of postsecondary education: career and technical education programs, community colleges, and four-year universities. Use the links above to download standalone checklists for individual postsecondary pathways.

EDUCATION PLANNING

- ☐ **Continue to work with the student to identify which postsecondary pathways they are interested in based on their interests and career goals.** It's not too late to schedule a visit in-person or virtually to a college campus or attend a college fair to explore options.
- ☐ **Students with an IEP and/or 504 Plan:** Make sure your student is provided a copy of their most recent Individualized Education Program (IEP) plan with their diagnosis to help access learning accommodations in college. If they aren't sure if they have had an IEP in the past, reach out to your local Foster

Youth Services Coordinating Program to verify. For youth 16 or older, the IEP should include a statement of needed transition services and appropriate measurable postsecondary goals. Students may be eligible for services through the Department of Rehabilitation. Learn more in Section 10.

- ☐ **Add report cards from 12th grade into the student's online or physical documents folder along with any certificates or awards earned for the year.** If the student transfers to a new school, obtain a copy of their school record and keep it with other important documents.
- ☐ **Help students develop a system to safely store all login usernames and passwords.** Students will need to create a number of new accounts in the college application process. Accounts may include applications for financial aid, WebGrants 4 Students, and college applications.
- ☐ **Help students obtain an email address that is strictly for college and financial aid application information.** Avoid using a high school email address, since those often expire.
- ☐ **If the student is interested in applying to four-year college or university, and has taken the courses necessary to apply, help them make a list of three to five colleges they are interested in.** If they have taken the courses necessary to apply to a four-year university this can include "reach school(s)," "target schools" and "safety schools." These are terms to describe the likelihood of being admitted based on factors such as a school's acceptance rate or average GPA. For example, at a "safety school" the student would most likely be accepted and at a "reach school" there is a lower chance of acceptance. If the student is interested in community college, explore which colleges have the programs the student is interested in.
- ☐ **Schedule tours/informational interviews to help narrow down choices and get a feel for the institution** (physical environment, types of courses, resources, etc.). Students should consider housing options available to them as well.
- ☐ **Schedule a meeting with campus foster youth support program staff to gather more information on available services.** See Section 10 of the guide for more information.

Zeidler,2007-04-29 This is the first book to address moral reasoning and socioscientific discourse It provides a theoretical framework to reconsider what a functional view of scientific literacy entails by examining how nature of science issues classroom discourse issues cultural issues and science technology society environment case based issues contribute to habits of mind about socioscientific content The text covers philosophical psychological and pedagogical considerations underpinning moral reasoning as well as the status of socioscientific issues in science education *12 YEAR-WISE CTET Paper 2 (Social Science/ Studies) Solved Papers (2011 - 2019) - 2nd English Edition* Disha Experts,2019-09-06 **Handbook of Research on Teaching** Drew Gitomer,Courtney Bell,2016-05-19 The Fifth Edition of the Handbook of Research on Teaching is an essential resource for students and scholars dedicated to the study of teaching and learning This volume offers a vast array of topics ranging from the history of teaching to technological and literacy issues In each authoritative chapter the authors summarize the state of the field while providing conceptual overviews of critical topics related to research on

teaching Each of the volume s 23 chapters is a canonical piece that will serve as a reference tool for the field The Handbook provides readers with an unaparalleled view of the current state of research on teaching across its multiple facets and related fields

Feature Films in English Language Teaching Britta Viebrock,2016-07-11 Feature Films in English Language Teaching deals with the use of motion pictures in the advanced EFL English as a foreign language classroom It provides a general introduction to film literacy and explains the rationale methods and objectives of working with feature films In addition the book contains in depth considerations on sixteen selected films which are grouped regionally Australia New Zealand South Africa USA Great Britain Each chapter describes the topical focus of the film and its central theme and provides background information on social historical political and geographical issues A profound analysis of selected scenes lays the foundation for considerations on the teaching potential of the film In a download section the chapters are complemented with ready to use teaching materials on film specific aspects narrative dramatic and cinematographic dimensions which are organised as pre while post viewing activities A glossary on technical terms for film analysis completes the volume

Teaching to Exceed the English Language Arts Common Core State Standards Richard Beach,Amanda Haertling Thein,Allen Webb,2012-06-25 As the new English Language Arts Common Core State Standards take hold across the United States the need grows for pre service and in service teachers to be ready to develop curriculum and instruction that addresses their requirements This timely thoughtful and comprehensive text directly meets this need It delineates a literacy practices and critical engagement curriculum framework for 6 12 English language arts education that explains and illustrates how the Standards highest and best intentions for student success can be implemented from a critical culturally relevant perspective that is firmly grounded in current literacy learning theory and research The first 6 12 English language arts methods text to be aligned with the Standards this book also addresses their limitations formalist assumptions about literacy learning limited attention to media digital literacies lack of attention to critical literacies and questionable assumptions about linking standards and text complexity to specific grade levels Specific examples of teachers using the literacy practices critical engagement curriculum framework in their classrooms shows how these limitations can be surpassed Features Moves the CCSS framework into a view that literacy is a contextualized social practice Challenges simplistic models that homogenize adolescent learners Adds the important element of critical literacy to English language arts classrooms Provides specific examples of teachers in action implementing these practices Interactive Companion Website with student and instructor resources The Website is designed to foster interactivity through participation in an online teaching planning simulation with a text video or case on one side of the screen and a chat box for instructors and students to share their reactions and planning ideas The Companion Website is linked to a wiki that serves as a repository for links activities units and further reading

An International Perspective on Economic Education William B. Walstad,2012-12-06 Economics is taught in some form in the secondary schools of nations throughout the world The subject

is rarely taught in elementary schools and while economics courses are offered in universities the majority of students end their formal education with secondary school Thus the best opportunity for the economic education of the youth of a nation occurs in secondary schools This book examines economic education at this critical level of the educational system The teaching of economics in secondary schools varies across countries These differences occur because of history the structure of education and other national factors At the same time there are common elements in the economic education of many countries especially in content coverage This contrast between the common features and the uniqueness of economic education in secondary schools of major industrial nations exemplifies the international perspective presented in this book The international perspective is developed in the six sections of the volume The first section discusses why nations should include economics in school curricula and presents a framework for teaching economics that should have global appeal Dissension and consensus on economic issues among North American and European economists are examined in the second section The third section surveys the U S research literature on precollege economic education and assesses the current state of economics instruction in U S schools The economics curricula and educational practices in seven other nations the U K Canada Japan Germany Austria Korea and Australia are described in the fourth and fifth sections The fifth section also presents international comparisons of economic understanding based on national testing in six of those nations The sixth and final section explores the role of economic education in centrally planned economies and its effects on the transition to a market economy using Russia Bulgaria and China as case studies

How to Make Successful Students in One Year - a Model for the World Nicholas Aggor, 2014-06-23 I wrote the book How To Make Successful Students In One Year A Model For The World as a true testament of real world academic success for parents teachers students school districts and governments of the world I used my skills as a very successful senior engineer with critical engineering quality controls and a very successful parent to design many practical innovations to help parents teachers students school districts and governments to make successful students starting from today The results from using this book are immediate effective significant and they work for all determined students of the world I recommend this book for all parents teachers students school districts and governments of the world *Research in Education*, 1974

Handbook of Research on Science Education, Volume II Norman G. Lederman, Sandra K. Abell, 2014-07-11 Building on the foundation set in Volume I a landmark synthesis of research in the field Volume II is a comprehensive state of the art new volume highlighting new and emerging research perspectives The contributors all experts in their research areas represent the international and gender diversity in the science education research community The volume is organized around six themes theory and methods of science education research science learning culture gender and society and science learning science teaching curriculum and assessment in science science teacher education Each chapter presents an integrative review of the research on the topic it addresses pulling together the existing research working to understand the historical trends and patterns in that

body of scholarship describing how the issue is conceptualized within the literature how methods and theories have shaped the outcomes of the research and where the strengths weaknesses and gaps are in the literature Providing guidance to science education faculty and graduate students and leading to new insights and directions for future research the Handbook of Research on Science Education Volume II is an essential resource for the entire science education community

Disciplinary and Content Literacy for Today's Adolescents, Sixth Edition William G. Brozo, 2017-04-25 Well established as a clear comprehensive course text in five prior editions this book has now been extensively revised with a focus on disciplinary literacy It offers a research based framework for helping students in grades 6-12 learn to read write and communicate academic content and to develop the unique literacy language and problem solving skills required by the different disciplines In an engaging conversational style William G Brozo presents effective instruction and assessment practices illustrated with extended case studies and sample forms Special attention is given to adaptations to support diverse populations including English language learners Prior edition title Content Literacy for Today's Adolescents Fifth Edition New to This Edition Shift in focus to disciplinary literacy as well as general content area learning Chapter on culturally and linguistically diverse learners Incorporates a decade of research and the goals of the Common Core State Standards Increased attention to academic vocabulary English language learners the use of technology and multiple text sources such as graphic novels and digital texts Pedagogical features chapter opening questions plus new case studies classroom dialogues practical examples sample forms and more
