organisms to those on ants apes and humankind the author makes a persuasive case that it is the group or superorganism rather than the lone individual that really matters in the evolutionary struggle But biology is not destiny and human culture is not always the buffer to our most primitive instincts we would like to think it is In these complex threads of thought lies the Lucifer Principle and only through understanding its mandates will we be able to avoid the nuclear crusades that await us in the twenty first century A revolutionary vision of the relationship between psychology and history The Lucifer Principle will have a profound impact on our concepts of human nature It is astonishing that a book of such importance could be such a pleasure to read Elizabeth F Loftus author of Memory

Stigma Gerhard Falk, 2010-04-06 What is it in human nature that leads us to label some as insiders and stigmatize others as outsiders Sociologist Gerhard Falk examines the social psychology that motivates this process of exclusion focusing on the outcasts in contemporary American society and comparing current experience with examples from the past Referring to the work of Emile Durkheim and Erving Goffman Falk reviews the whole range of stigmatized people from the mentally ill to ordinary people with unpopular occupations like undertakers and trash collectors Amid the wide diversity of stigmatized persons he finds two basic types of outsiders the existential and the achieved The first group comprises those who are stigmatized because of their very existence regardless of their specific actions the mentally handicapped for example The second group describes those whose actions or life conditions have resulted in stigma from high achievers often subject to resentment to criminals Falk also looks at the ways in which writers past and present have dramatized stigmatized characters in literature This fascinating overview of a long standing and widespread social problem will be of interest to all those concerned about creating a more fair minded society
