ABCs on participants receptivity toward cultural differences In the TRANSABCs project researchers from both sides of the Atlantic invited teacher candidates students who will become workplace and other professionals to write an autobiography A of themselves from various cultural perspectives a biography B of an individual who is culturally different from themselves along particular dimensions and to use these documents to conduct cross cultural comparisons C between themselves and the person they interviewed Furthermore candidates developed culturally responsive ideas for the school or the workplace C These exchanges and analyses produced epiphanies and insights that translated into specific actions to improve cultural understanding and communication in classrooms and workplaces Educators and professionals can take from these examples to inspire their own personal journey toward greater cultural understanding and sensitivity The witness box; or, The murder of mr.
