Specular City Laura Podalsky, 2004 A sweeping account of one of the cultural centers of Latin America Specular City tells the history of Buenos Aires during the interregnum after Juan Perón's fall from power and before his restoration During those two decades the city experienced a rapid metamorphosis at the behest of its middle class citizens who were eager to cast off the working class imprint left by the Peronists Laura Podalsky discusses the ways in which the proliferation of skyscrapers the emergence of car culture and the diffusion of an emerging revolution in the arts helped transform Buenos Aires and in so doing redefine Argentine collective history More than a cultural and material history of this city this book also presents Buenos Aires as a crucible for urban life Examining its structures through films literatures new magazines advertising and architecture Specular City reveals the prominent place of Buenos Aires in the massive changes that Latin America underwent for a new modern definition of itself

Detective Fiction on the Case of Community Devin Fromm, 2024-10-25 Detective Fiction on the Case of Community uses one of the most popular forms of modern literature to examine one of modernity's most trenchant problems The project rests on the argument that detective fiction emerges specifically from an awareness of the stress that modernization puts on the possibilities of communal life as industrialization and urbanism accelerate the alienation and atomization we recognize as modern conditions Here the detective appears as an image of thinking still able to perceive the threads that link such alienated people together and therefore able to imagine solutions along the lines of these obscured connections Reading the genre's journey from its origins in Poe to its most unorthodox form in Pynchon allows fresh perspectives on the possibilities and limits of modern community from its endurance as part of modernization to its meaning today as a sticking point in theoretical debate and political activism

and Lives Worth Living The first two sections Evolutionary Myths Under the City and Urban Eco trauma take more traditional ecocinema approaches and emphasize the city as a dangerous constructed space The last two sections Urban Nature and Interdependence and The Sustainable City however bring to life the vibrant relationships between human and nonhuman nature Ecocinema in the City provides a space to explore these relationships revealing how ecocinema shows that both human and nonhuman nature can interact sustainably and thrive
