The Af Of L From The Death Of Gompers To The Merger

Chris Cook, John Stevenson

The Af Of L From The Death Of Gompers To The Merger:

The A.F. of L. from the Death of Gompers to the Merger Philip Taft, 1959 *Labor's Home Front* Andrew E. Kersten, 2009-03 One of the oldest strongest and largest labor organizations in the U S the American Federation of Labor AFL had 4 million members in over 20 000 union locals during World War II The AFL played a key role in wartime production and was a major actor in the contentious relationship between the state organized labor and the working class in the 1940s The war years are pivotal in the history of American labor but books on the AFL s experiences are scant with far more on the radical Congress of Industrial Unions CIO Andrew E Kersten closes this gap with *Labor s Home Front* challenging us to reconsider the AFL and its influence on twentieth century history Kersten details the union s contributions to wartime labor relations its opposition to the open shop movement divided support for fair employment and equity for women and African American workers its constant battles with the CIO and its significant efforts to reshape American society economics and politics after the war Throughout Kersten frames his narrative with an original central theme that despite its conservative nature the AFL was dramatically transformed during World War II becoming a more powerful progressive force that pushed for liberal change **Brief History of the American Labor Movement** United States. Bureau of Labor Statistics, 1964

A Brief History of the American Labor Movement United States. Bureau of Labor Statistics, 1970 **Bulletin of the United States Bureau of Labor Statistics** , 1964 *The Bay Shrimpers of Texas* Robert Lee Maril, 1995 To read this book is to spend a day on a 40 foot shrimp boat in a southern Texas bay then return home to an isolated port town whose economy revolves around shrimping and whose future is in jeopardy Often reading like a good novel Maril s political economy of the Texas shrimp industry is written by someone who knows the inner workings of the industry and the communities that depend upon it A rich and highly engaging study of the industry *Contemporary Sociology* **Encyclopedia of U.S. Labor and Working-class History** Eric Arnesen, 2007 Publisher Description **Seedtime of Reform** Clarke A. Chambers, 1963-01-01 *Seedtime of Reform* was first published in 1963 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This is a detailed history of the social welfare movement in the United States during the period from the end of World War I to the inauguration of President Franklin D Roosevelt an era which most historians characterize as one of normalcy and reaction In his book Professor Chambers demonstrates that this was actually a seedtime of reform a period when the groundwork was laid for many of the sweeping social changes which were to take place under the New Deal While it is true as the author points out that the years from 1918 to 1933 were not hospitable to the cause of reform it was during these years that reform leaders and welfare workers and the associations and agencies they directed elaborated new theories and programs of action to alleviate prevent and overcome certain persisting social ills Although little was constructively achieved until new political leadership operating in the context of acute and prolonged economic crisis acted in the 1930s much of what we identify as

the New Deal was rooted not only in prewar progressivism but in the research agitation and welfare services of the 1920s as well Reformers and welfare workers made especially significant contributions in the areas of housing social security public works federal responsibility for dependent groups in society and working conditions **William Green** Craig

Phelan,1989-01-01 William Green president of the American Federation of Labor from 1924 to 1952 was a controversial figure whom historians invariably depict as bumbling incompetent vain and ignorant the cheerful servant of selfish and reactionary craft unionists and the person most directly responsible for the split in organized labor in 1935 This biography provides a social and political context for Green s actions in an attempt to vindicate one of the last heirs of a religiously inspired trade unionism that sought cooperation between labor and capital on the basis of biblical precepts *The Cambridge Economic History of Europe* Michael Moïssey Postan,H. J. Habakkuk,1966 For contents and other editions see

Title Catalog **Republicans and Labor** Robert H. Zieger,2021-10-21 At no other time in American history had labor unrest been more evident than the period immediately after World War I Robert H Zeiger here recounts the labor problems that faced the Republican administrations of Presidents Harding and Coolidge massive strikes antiracial hysteria and the hardening of class attitudes throughout the nation and describes the programs and policies of Republican leaders particularly those of Herbert Hoover to solve them Zeiger finds that while suspicion and animosity between the Republicans and the union leaders persisted the rising prosperity of the nation together with the adroit efforts of Hoover and his associates tended to lessen the influence of extremists in both groups Labor reached an accommodation of sorts with the Coolidge administration and when in 1928 Hoover defeated Al Smith the substantial labor vote he received was among the factors that lent stature to his victory **The Routledge Companion to World History since 1914** Chris Cook,John

Stevenson,2006-01-27 The Routledge Companion to World History since 1914 is an outstanding compendium of facts and figures on World History Fully up to date reliable and clear this volume is the indispensable source of information on a thorough range of topics such as the Arab Israeli conflict anti semitism and the Holocaust all the world s major famines and natural disasters since 1914 whether all countries of the world have a king president prime minister or other governance GNP of the world s major states year by year biographies of key figures civil rights movements the Vietnam War the rise of terrorism globalization Thematically presented the book covers topics relevant from the First World War to the Iraq war of 2003 and from post colonial Africa to conflicts and movements in Southeast Asia With maps chronologies and full bibliography this user friendly reference work is the essential companion for students of history politics and international

relations and for all those with an interest in world history **The role of federal military forces in domestic disorders, 1877-1945** Clayton D. Laurie,1997-07-15 CMH 30 15 Army Historical Series 2nd of three planned volumes on the history of Army domestic support operations This volume encompasses the period of the rise of industrial America with attendant social dislocation and strife Major themes are the evolution of the Army s role in domestic support operations its strict adherence to

law and the disciplined manner in which it conducted these difficult and often unpopular operations The Role of Federal Military Forces in Domestic Disorders, 1877-1945 Clayton David Laurie, Ronald H. Cole, 1997 Published in 1904 this forgotten classic is sci fi and dystopia at its best written by the creator and master of the genre Following extensive research in the field of growth Mr Bensington and Professor Redwood light upon a new mysterious element a food that causes greatly accelerated development Initially christening their discovery The Food of the Gods the two scientists are overwhelmed by the possible ramifications of their creation Needing room for experiments Mr Besington chooses a farm that offers him the chance to test on chickens which duly grow monstrous six or seven times their usual size With the farmer Mr Skinner failing to contain the spread of the Food chaos soon reigns as reports come in of local encounters with monstrous wasps earwigs and rats The chickens escape leaving carnage in their wake The Skinners and Redwoods have both been feeding their children the compound illicitly their eventual offspring will constitute a new age of giants Public opinion rapidly turns against the scientists and society rebels against the world s new flora and fauna Daily life has changed shockingly and now politicians are involved trying to stamp out the Food of the Gods and the giant race Comic and at times surprisingly touching and tragic Wells story is a cautionary tale warning against the rampant advances of science but also of the dangers of greed political infighting and shameless vote seeking **The Hungry Years** T. H. Watkins, 2000-09 Draws from oral histories memoirs local newspaper reports and scholarly texts to tell the story of America s Great Depression in the words of people who lived through it Hard Travellin' Kenneth Allsop, 2011-09-28 It was the railway system which moulded the American hobo into the legendary figure he became especially in the depression years but surviving until today His origins however go back to the early pioneer days He is in fact a unique and indigenous American product capriciously used and discarded by a callous but dynamic system Revered and romanticized by some as the prototype of free man he is hated and feared by others for his nonconformity In order to trace the origins of the various types of hobo and their effect on American life Kenneth Allsop travelled 9 000 miles across the continent following old hobo routes interviewing and researching as he went along

American Automobile Workers, 1900-1933 Joyce S. Peterson, 1987-11-01 This book is a comprehensive history of automobile workers in the pre union era It covers changes in the kinds of workers who staffed the auto factories developments in the labor process and in overall conditions of work daily life outside the factories informal responses of workers to routinized monotonous and highly structured work and automobile worker unions before the creation of the United Automobile Workers Although the 1920s were seen at the time as a period of peaceful and cooperative labor relations author Joyce Peterson looks beneath the surface to discover the many ways in which auto workers expressed their displeasure with and attempted to fight against working conditions The book also examines the Briggs strike of 1933 the first strike to significantly register the impact of the Great Depression upon the automobile industry and to mark the end of the pre union era The automobile industry was a model of twentieth century mass production techniques of managerial

organization and of labor relations Studying automobile workers in their historical and social setting explains a great deal about the nature of modern industry how it affects the daily life and work of employees and how workers see themselves as individuals and members of a working class *The Americanization of West Virginia* John C. Hennen, 2014-10-17 Local teachers and ministers extolling the virtues of hard work and loyalty to God and country Veterans groups and women's clubs promoting the military fighting radicalism and equating business and patriotism Industrial leaders gaining legal as well as moral influence over national domestic policy Such scenes might seem to be lifted from a Sinclair Lewis novel or a Contract with America publicity video But as John C Hennen shows in this piercing analysis of early twentieth century American political culture from 1916 to 1925 Americanization became the theme indeed the script not only of West Virginia but of the entire nation Hennen's interdisciplinary work examines a formative period in West Virginia's modern history that has been largely neglected beyond the traditional focus on the coal industry Hennen looks at education reform and industrial relations in the state in the context of war mobilization postwar instability and national economic expansion The First World War he says consolidated the dominant positions of professionals business people and political capitalists as arbiters of national values These leaders emerged from the war determined to make free market business principles synonymous with patriotic citizenship Americanization therefore refers less to the assimilation of immigrants into the national mainstream than to the attempt to encode values that would guarantee a literate loyal and obedient producing class To ensure that the state fulfilled its designated role as a resource zone for the perceived greater good of national strength corporate leaders employed public relations tactics that the Wilson administration had refined to gain public support for the war Alarmed by widespread labor activism and threatened by fears of communism the American Constitutional Association in West Virginia one of dozens of similar organizations nationwide articulated principles that identified the well being of business with the well being of the country With easy access to teacher training and classroom programs antiunion forces had by 1923 rolled back the wartime gains of the United Mine Workers of America Middle class voluntary organizations like the American Legion and the West Virginia Federation of Women's Clubs helped implant mandated loyalty in schoolchildren Far from being isolated during America's transformation into a world power West Virginia was squarely in the mainstream The state's people and natural resources were manipulated into serving crucial functions as producers and fuel for the postwar economy Hennen's study therefore is a study less of the power or force of ideas than of the importance of access to the means to transmit ideas The winner of the 1995 Appalachian Studies Award is a significant contribution to regional studies as well as to our understanding of American culture during and after World War I *Encyclopedia of U.S. Political History* Andrew Robertson, Michael A. Morrison, William G. Shade, Robert Johnston, Robert Zieger, Thomas Langston, Richard Valelly, 2010-04-01 Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in

the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader s understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader s guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors

VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence

VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system

VOLUME 3 Expansion Division and Reconstruction 1841 1877 Volume Editor William Shade Lehigh University emeritus This volume examines three decades in the middle of the nineteenth century which witnessed the emergence of the debate over slavery in the territories which eventually led to the Civil War the military conflict itself from 1861 until 1865 and the process of Reconstruction which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877

VOLUME 4 From the Gilded Age through the Age of Reform 1878 1920 Volume Editor Robert Johnston University of Illinois at Chicago With the withdrawal of federal soldiers from Southern states the previous year 1878 marked a new focus in American politics and it became recognizably modern within the next 40 years This volume focuses on race and politics economics labor and capitalism agrarian politics and populism national politics progressivism foreign affairs World War I and the end of the progressive era

VOLUME 5 Prosperity Depression and War 1921 1945 Volume Editor Robert Zieger University of Florida Between 1921 and 1945 the U S political system exhibited significant patterns of both continuity and change in a turbulent time marked by racist conflicts the Great Depression and World War II The main topics covered in this volume are declining

party identification the Roosevelt Coalition evolving party organization congressional inertia in the 1920s the New Deal Congress during World War II the growth of the federal government Franklin D Roosevelt s presidency the Supreme Court s conservative traditions and a new judicial outlook VOLUME 6 Postwar Consensus to Social Unrest 1946 1975 Volume Editor Thomas Langston Tulane University This volume examines the postwar era with the consolidation of the New Deal the onset of the Cold War and the Korean War It then moves into the 1950s and early 1960s and discusses the Vietnam war the era of John F Kennedy the Cuban Missile Crisis the Civil Rights Act Martin Luther King and the Voting Rights Act antiwar movements The War Powers Act environmental policy the Equal Rights Amendment Roe v Wade Watergate and the end of the Vietnam War VOLUME 7 The Clash of Conservatism and Liberalism 1976 to present Volume Editor Richard Valelly Swarthmore College The troubled Carter Administration 1977 1980 proved to be the political gateway for the resurgence of a more ideologically conservative Republican party led by a popular president Ronald Reagan The last volume of the Encyclopedia covers politics and national institutions in a polarized era of nationally competitive party politics and programmatic debates about taxes social policy and the size of national government It also considers the mixed blessing of the change in superpower international competition associated with the end of the Cold War Stateless terrorism symbolized by the 9 11 attacks the continuing American tradition of civil liberties and the broad change in social diversity wrought by immigration and the impact in this period of the rights revolutions are also covered *Work in America* Carl E. Van Horn, Herbert A. Schaffner, 2003-12-15 The first comprehensive analysis of work and the workforce in the United States from the Industrial Revolution to the era of globalization This comprehensive two volume reference book is the first to analyze the central role of work and the workforce in U S life from the Industrial Revolution through today s information economy Drawing on a variety of disciplines economics public policy law human and civil rights cultural studies and organizational psychology its 256 entries examine key events concepts institutions and individuals in labor history Entries also tackle tough contemporary questions that reflect the conflicts inherent in capitalism What is the impact of work on families and communities On minority and immigrant populations How shall we respond to changing work roles and the growing influence of the transnational corporation *Work in America* describes and evaluates attempts to address social and class issues affirmative action occupational health and safety corporate management science and trade unionism and organized labor and offers the kind of comprehensive understanding needed to discover workable solutions
