The Healers Tale Transforming Medicine And Culture Life Course Studies:

The Healer's Tale Sharon R. Kaufman, 1993 Medical anthropologist Kaufman U of Calif San Francisco interviewed seven doctors eminent in their fields and trained during the 1920s and 1930s She interviewed them between 1987 and 1989 they were all between the 80 83 years old seeking their life stories and their feelings and thinking about the shape of American medical education and care today Annotation copyright by Book News Inc Portland OR **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1993 **Current Catalog** National Library of Medicine (U.S.), 1993 First multi year cumulation covers six years 1965 70 The Publishers Weekly, 1995 Leaving Home Before Marriage Frances Goldscheider, 1996-01-15 Traditionally children have lived in their parents homes until they were married and ready to start their own families Leaving Home before Marriage explores a step that young American adults are increasingly taking setting up a household alone or with housemates Frances K Goldscheider and Calvin Goldscheider analyze this profound change as it figures in the plans of young people and their parents and in the decisions they eventually make about their living arrangements The Goldscheiders find that gender attitudes ethnic and religious values and generational relationships shape the path young people take to residential independence AB Bookman's Weekly, 1999 **America, History and Life**, 1995 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide *The Reader's Adviser*, 1994 **Insider's Guide to Book Editors, Publishers, and Literary Agents, 1996-1997** Jeff Herman, 1995-10-25 No other book gives aspiring authors the inside scoop on the names and specialties of acquisitions editors This vital information makes all the difference when submitting a book proposal or manuscript by keeping writers of all genres on top of the rapidly changing world of publishing Who's moved where who's new to the scene who's gone for good it's all here in one big volume **Isis Cumulative Bibliography 1986-1995: Time periods: 19th and 20th centuries. ordinary working and lower middle class women most of them transplants from villages and small towns to a densely populated city neighborhood In their early years many experienced family disruption emotional deprivation and economic hardship but steadily increasing educational opportunities improved health care and easily available contraception have significantly altered how the younger women relate to their families and the larger society Today's Mexican schoolgirl Levine shows is encouraged to apply herself to her studies for her own benefit and the longer she remains in school the greater the self confidence she will carry with her into the world of work and later into marriage and motherhood Hard economic times have forced many married women into the workplace where their sense of personal efficacy is enhanced at the same time in the domestic sphere their earnings allow them greater negotiating power with husbands and male relatives Changes are not confined to the younger generation Older women are enjoying better health and living longer but with adult children either less able or willing to accept responsibility for aged parents than they were in the past anxiety runs high and family relations are often strained Dolor y Alegría takes a close look at the efforts of three generations of Mexican women to redefine themselves in both family and workplace it shows that today's young woman has very different expectations of herself and others from those that her grandmother or even her mother had
