Worlds Beyond Laura Forsberg, 2021-05-11. An innovative study of how the Victorians used books, portraits, fairies, microscopes, and dollhouses to imagine miniature worlds beyond perception. In 1856, Elizabeth Gaskell discovered a trove of handmade miniature books that were created by Charlotte and Branwell Brontë in their youth, and that, as Gaskell later recalled, contained an immense amount of manuscript in an inconceivably small space. Far from being singular wonders, these two-inch volumes were part of a wide array of miniature marvels that filled the drawers and pockets of middle and upper-class Victorians. Victorian miniatures pushed the boundaries of scientific knowledge, mechanical production, and human perception. To touch a miniature was to imagine what lay beyond these boundaries. In *Worlds Beyond*
