The Great Chicago Fire and the Myth of Mrs. O'Leary's Cow Richard F. Bales, 2015-09-01 The Great Chicago Fire of 1871 swallowed up more than three square miles in two days leaving thousands homeless and 300 dead Throughout history the fire has been attributed to Mrs O Leary an immigrant Irish milkmaid and her cow On one level the tale of Mrs O Leary s cow is merely the quintessential urban legend But the story also represents a means by which the upper classes of Chicago could blame the fire s chaos on a member of the working poor Although that fire destroyed the official county documents some land tract records were saved Using this and other primary source information Richard F Bales created a scale drawing that reconstructed the O Leary neighborhood Next he turned to the transcripts more than 1 100 handwritten pages from an investigation conducted by the Board of Police and Fire Commissioners which interviewed 50 people over the course of 12 days The board s final report published in the Chicago newspapers on December 12 1871 indicates that commissioners were unable to determine the cause of the fire And yet by analyzing the 50 witnesses testimonies the author concludes that the commissioners could have determined the cause of the fire had they desired to do so Being more concerned with saving their own reputation from post fire reports of incompetence drunkenness and bribery the commissioners failed to press forward for an answer The author has uncovered solid evidence as to what really caused the Great Chicago Fire **The Cornhill Magazine** ,1861 **The Atlantic Monthly** ,1861 **Cassell's Illustrated Family Paper** ,1860 **Agnes of Sorrento** Harriet Beecher Stowe,1869 The River People: Book Three in the Bompeau Family Saga Brien Brown,2024-07-15 The early 18th century was a time of turmoil and change in America England and France fought each other to establish American colonies and formed alliances with the great competing Iroquois and Algonquin confederations European colonists staked claims to native lands Native people resisted those claims European diseases and technology changed the continent in ways few understood Native American tribes engaged in near constant conflict no one knew how to stop In this environment the River People risked war with their ancient enemies the Mingos by granting protection to six travelers Tamaqua a Lenape warrior and his blood brother John Tamaqua s son Boy John s wife Abigail their two year old son Benny and fourteen year old Tilly In exchange for this protection they expected the travelers to participate in village life John felt pressured to go on the winter long beaver hunt that had become the new core of the village economy Abigail and Tilly tried to settle into village life making wampum and coping with Native anger toward Whites Tamaqua concentrated on recovering from his wounds Then on the same night that children in the village became ill with Dutch Fever Tamaqua s Manitou appeared to him in a dream telling him Abigail had knowledge that could save many lives The problem was Abigail had no idea what she knew Meanwhile people were dying One thing is sure the long hard winter would change them all in ways no one expected The River People
