I don't even want to talk about it anymore. What were you thinking? What was going on in your mind? Artistic integrity? Where, where did you come up with that? You're not artistic and you have no integrity. You know you really need some help. A regular psychiatrist couldn't even help you. You need to go to like Vienna or something. You know what I mean? You need to get involved at the University level. Like where Freud studied and have all those people looking at you and checking up on you. That's the kind of help you need. Not the once a week for eighty bucks. No. You need a team. A team of psychiatrists working round the clock thinking about you, having conferences, observing you, like the way they did with the Elephant Man. That's what I'm talking about because that's the only way you're going to get better.
