The Oregon Trail Famous American Trails

Arlan Dean

The Oregon Trail Famous American Trails:

The Oregon Trail and the Appalachian Trail Charles River, 2023-12-07 The westward movement of Americans in the 19th century was one of the largest and most consequential migrations in history and among the paths that blazed west the most well known is the Oregon Trail which was not a single trail but a network of paths that began at one of four jumping off points The eastern section of the Oregon Trail which followed the Missouri River through Kansas Nebraska and Wyoming was shared by people traveling along the California Bozeman and Mormon Trails These trails branched off at various points and the California Trail diverged from the Oregon Trail at Fort Hall in southern Idaho From there the Oregon Trail moved northward along the Snake River then through the Blue Mountains to Fort Walla Walla From there travelers would cross the prairie before reaching the Methodist mission at The Dalles which roughly marked the end of the Trail The Trail stretched roughly half the country and hundreds of thousands of settlers would use it yet the Oregon Trail is famous not so much for its physical dimensions but for what it represented As many who used the Oregon Trail described in memoirs the West represented opportunities for adventure independence and fortune and fittingly the ever popular game named after the Oregon Trail captures that mentality and spirit by requiring players to safely move a party west to the end of the trail Perhaps most famously the game that helped popularize current generations interest in the Oregon Trail highlighted the obstacles the pioneers faced in moving West Indeed as all too many settlers discovered traveling along the Trail was fraught with various kinds of obstacles and danger including bitter weather potentially deadly illnesses and hostile Native Americans not to mention an unforgiving landscape that famous American explorer Stephen Long deemed unfit for human habitation And while many would look back romantically at the Oregon Trail over time 19th century Americans were all too happy and eager for the transcontinental railroad to help speed their passage west and render overland paths like the Oregon Trail obsolete A sizeable body of literature is available on the east west pathways of the American continent including the famous wagon train trails that helped to colonize the nation to the shores of the Pacific Any study of these routes ranging from footpaths to early American highways is accompanied by an equally vibrant collection of popular literature In the perception of the American history buff the continent was fully peopled by the advent of the 20th century and the American mystique began to shrink with the absence of unexplored land The most iconic of the major American pathways is the Appalachian Trail which completes the triple crown 1 of the national hiking experience Covering a range from central Maine to Georgia at a distance of 2 193 miles it is the longest of the three following the crest of the Alleghenies and Blue Ridge Mountains through 14 states All in all it encompasses 465 000 feet in elevation and hosts three million visitors each year for at least a part of the total distance On an annual basis approximately 4 000 hikers begin a south to north trek beginning at Springer Mountain Georgia with the goal of hiking all the way to Maine The northerly direction is greatly preferred in part because of the weather and because the northern terminus closes in mid October creating a difficulty for slow travelers **The**

Overland Trail Arlan Dean, 2001 Describes the Oregon Trail and the frontiersmen who traveled to Fort Bridger *The Oregon Trail* Charles River Editors, 2014-01-17 Includes pictures Includes accounts of people who traveled on the Oregon Trail Includes a bibliography for further reading My greatest pleasure in travelling through the country is derived from the knowledge that it has seldom been traversed or at least never been described by any hackneyed tourist that everything I see or look upon has been seen by me before it has become common by the vulgar gaze or description of others Dr James Middleton The westward movement of Americans in the 19th century was one of the largest and most consequential migrations in history and among the paths that blazed west the most well known is the Oregon Trail which was not a single trail but a network of paths that began at one of four jumping off points The eastern section of the Oregon Trail which followed the Missouri River through Kansas Nebraska and Wyoming was shared by people traveling along the California Bozeman and Mormon Trails These trails branched off at various points and the California Trail diverged from the Oregon Trail at Fort Hall in southern Idaho From there the Oregon Trail moved northward along the Snake River then through the Blue Mountains to Fort Walla Walla From there travelers would cross the prairie before reaching the Methodist mission at The Dalles which roughly marked the end of the Trail The Trail stretched roughly half the country and hundreds of thousands of settlers would use it yet the Oregon Trail is famous not so much for its physical dimensions but for what it represented As many who used the Oregon Trail described in memoirs the West represented opportunities for adventure independence and fortune and fittingly the ever popular game named after the Oregon Trail captures that mentality and spirit by requiring players to safely move a party west to the end of the trail Perhaps most famously the game that helped popularize current generations interest in the Oregon Trail highlighted the obstacles the pioneers faced in moving West Indeed as all too many settlers discovered traveling along the Trail was fraught with various kinds of obstacles and danger including bitter weather potentially deadly illnesses and hostile Native Americans not to mention an unforgiving landscape that famous American explorer Stephen Long deemed unfit for human habitation And while many would look back romantically at the Oregon Trail over time 19th century Americans were all too happy and eager for the transcontinental railroad to help speed their passage west and render overland paths like the Oregon Trail obsolete The Oregon Trail America's Most Famous Path to the Western Frontier comprehensively covers the history of the Trail and the settlers who moved west along it including descriptions of the Trail in accounts written by settlers Along with pictures depicting important people places and events you will learn about the Oregon Trail like you never have before *American Trails Revisited* Lyn Wilkerson, 2003-07 American Trails Revisited follows in the proverbial footsteps of the many explorers and pioneers who traveled across the American West Based on the works of the Federal Writers Project in the 1940s this book organizes updates and enhances the original material to provide an easy to follow historical travel guide to the Western United States Along with the history of the people and places you will find along the way this book also includes information for local state and national parks A portion of the

proceeds from this book will be used to support local historical organizations so that the history that you rediscover in your travels will remain for those who follow in your footsteps

The Oregon Trail Arlan Dean, 2002-12-15 Describes the Oregon Trail and the pioneers who settled in the Pacific Northwest

The Great Medicine Road, Part 1 Will Bagley, 2014 Between 1841 and 1866 more than 500 000 people followed trails to Oregon California and the Salt Lake Valley in one of the greatest mass migrations in American history This collection of travelers accounts of their journeys in the 1840s the first volume in a new series of trail narratives comprises excerpts from pioneer and missionary letters diaries journals and memoirs many previously unpublished accompanied by biographical information and historical background
