Darwin's Demise Nicholas Comninellis, Joe White, 2001-11-01 For people confused by the contradictory messages they hear from secular science and church teaching evolution can be intimidating The truth is that Darwin's ideas are based upon faulty science and that creationists have solid evidence to support their claims Finally a brilliant defense of Genesis and the Bible's teaching about origins is waiting for those who are soon to understand how Darwinism is fraudulent faith masquerading as science Authors Joe White and Nicholas Comninellis have a passion for truth and for sharing it with students and their parents In Darwin's Demise they succeed in showing why real science is burning down the House of Darwin

**Religion and American Education** Warren A. Nord, 2014-07-01 Warren Nord's thoughtful book tackles an issue of great importance in contemporary America the role of religion in our public schools and universities According to Nord public opinion has been excessively polarized by those religious conservatives who would restore religious purposes and practices to public education and by those secular liberals for whom religion is irrelevant to everything in the curriculum While he maintains that public schools and universities must not promote religion he also argues that there are powerful philosophical political moral and constitutional reasons for requiring students to study religion Indeed only if religion is included in the curriculum will students receive a truly liberal education one that takes seriously a variety of ways of understanding the human experience Intended for a broad audience Nord's comprehensive study encompasses American history constitutional law educational theory and practice theology philosophy and ethics It also discusses a number of current controversial issues including multiculturalism moral education creationism academic freedom and the voucher and school choice movements

*Evolution Vs. Creationism* Eugenie C. Scott, 2009-08-03 Presents the scientific evidence for evolution and reasons why it should be taught in schools provides various religious points of view and offers insight to the evolution creationism controversy

**The Biblical Basis for Modern Science** Henry Morris, 2020-02-11 The Bible is Indeed a Book of Science Revealed By God We live in a scientific age and the proliferation of scientific knowledge and the resulting technologies seem almost endless Scientific discoveries and developments however can be a danger as well as a blessing to mankind The modern world is desperately in need of God's own wisdom concerning the purpose and meaning of true science When you move beyond modern assumptions and false preconceptions the Bible is found to not only reveal a thoroughly modern perspective on the real facts and principles of science but also to provide wisdom and guidance concerning its proper role in human life Biology is the science of life and Christ himself is life Geology is the science of the earth and He is the Creator of the ends of the earth We also could speak of other sciences but all must ultimately be ascribed to Christ True knowledge of any component of His creation must depend ultimately on the knowledge of Christ and His Word Reveals biblical insights for cosmology astronomy physics thermodynamics chemistry geology paleontology biology anthropology and more Brings to light how scientific and statistical evidence rationally evaluated favor God over evolution

**Skepticism: The Case against Christianity?** John G. Weldon ,2023-04-11 An examination of skepticism and one of its principal complaints against God the Bible and Christianity Despite the best efforts of the most skilled skeptics for 20 centuries the case against Christianity has never been made Alleged moral dilemmas often cited by skeptics as proof the Bible could not be divinely inspired have critical information left out

**Evolution: What Dawkins Did Not Tell You** Olufemi Emmanuel Dokun-Babalola,2015-06-04 The notion that those of us who are Christians are some kind of flat earthers who are impervious to reason and evidence based science is utterly false For atheism to succeed as an ideology humanists must find an alternative explanation to creation and intelligent design Therefore there is a hard push for molecule to man evolution to be accepted as dogma In this book a robust riposte is presented to the current most popular book pushing this concept on the unsuspecting public The Greatest Show on Earth by Richard Dawkins A lot of research has gone into Evolution What Dawkins Did Not Tell you and the thinking of several other leading scientists is encapsulated What is clear to the author at the end of his exhaustive research is that macroevolution just like green men on Mars is desperate wishful thinking It is hoped this book will be read by the lay public scientists college and high school students evolutionists creationists as well as policy makers in education and political leaders If read with an open mind there can be only one conclusion In the beginning God created the heavens and the earth

**The Comprehensive Guide to Science and Faith** William A. Dembski,Casey Luskin,Joseph M. Holden,2021-10-05 Science and Faith Can and Do Support Each Other Science and Christianity are often presented as opposites when in fact the order of the universe and the complexity of life powerfully testify to intelligent design With this comprehensive resource that includes the latest research you ll witness how the findings of scientists provide compelling reasons to acknowledge the mind and presence of a creator Featuring more than 45 entries by top caliber experts you ll better understand how scientific concepts like intelligent design are supported by evidence the scientific findings that support the history and accounts found in the Bible the biases that lead to scientific information being presented as a challenge rather than a complement to Christianity Whether you re looking for answers to your own questions or seeking to explain the case for intelligent design to others The Comprehensive Guide to Science and Faith is an invaluable apologetic tool that will help you explore and analyze the relevant facts research and theories in light of biblical truth

*The Genesis Column* W. Joseph Stallings,2018-08-08 It is the assertion of Old Earth Creationism that God created the Earth and then made it into an inhabitable environment over the course of a week of epoch long creation days It is the assertion of modern science that the Earth is 4 6 billion years old and has reached such an age by passing through a number of geologic periods that are differentiated by stratigraphic paleontological and other empirical markers Therefore it seems very logical that if one holds to the veracity of these two basic assertions then the long creation days of Genesis and the geologic ages of modern science can and should be effectively correlated with one another in some cohesive and systematic manner Here we offer our origins correlation model The Genesis Column which does just
