The Origins And Characteristics Of Lasallian Pedagogy:

The Origins and Characteristics of Lasallian Pedagogy Yves Poutet, 1997 The Origins and Characteristics of Lasallian Pedagogy Gerard Rummary Fsc, 1997-05-15 Originally published in 1997 by De La Salle University Press Manila Philippines this classic study of St John Baptist de La Salle and the early Brothers has not been generally available in the United States It is reprinted here through the Lasallian Resource Center and the RELAN regional office This is a translation from the original French version published by permission of the author and of Editions Don Bosco 75 rue Alexandre Dumas 75020 Paris Touching the Hearts of Students George Van Grieken, 1999 This volume is a resource for teachers administrators board members and all who are engaged in Lasallian educational ministries today It reflects on the life and times of De La Salle and the early Institute and their significance in today's educational world There are questions at the end of each chapter along with a description of the Lasallian School as found in the tradition The book contains an extensive annotated bibliography of Lasallian resources as well as a glossary of Lasallian terms A model Lasallian Mission and Vision Statement gives any Lasallian group an excellent example of such statements **Innovation in Early Modern Catholicism** Ulrich L. Lehner, 2021-11-29 This volume demonstrates that the Catholic rhetoric of tradition disguised both novelties and creative innovations between 1550 and 1700 Innovation in Early Modern Catholicism reveals that the period between 1550 and 1700 emerged as an intellectually vibrant atmosphere shaped by the tensions between personal creativity and magisterial authority The essays explore ideas about grace physical predetermination freedom and probabilism in order to show how the rhetoric of innovation and tradition can be better understood More importantly contributors illustrate how disintegrated historiographies which often excluded Catholicism as a source of innovation can be overcome Not only were new systems of metaphysics crafted in the early modern period but so too was a new conceptual language to deal with the pressing problems of human freedom and grace natural law and Marian piety Overall the volume shines significant light on hitherto neglected or misunderstood traits in the understanding of early modern Catholic culture Representing early modern Catholicism more crucially than any other currently available study Innovation in Early Modern Catholicism is a useful tool for advanced undergraduates postgraduates and scholars in the fields of philosophy early modern studies and the history of theology *To Touch Hearts - Pedagogical Spirituality and St. John Baptist de La Salle* George Van Grieken FSC, 2011-03-25 This work addresses Lasallian pedagogical spirituality defined as the dynamic integration of foundational convictions basic operative commitments and consistent practices permeating the teaching dimensions of schools that claim the heritage of St John Baptist de La Salle and the Brothers of the Christian Schools The dissertation examines the content of Lasallian pedagogical spirituality and proposes measures for realizing its vitality within Lasallian school life Particular pedagogical characteristics components of an overall pedagogical spirituality are present in the original charism of St John Baptist de La Salle The basic operative commitments that underlie those characteristics ought to be integrally realized in a pedagogy that

claims to be Lasallian and wholly incorporated in the formation of Lasallian educators There are three sequential parts to the dissertation 1 an overview of the St John Baptist de La Salle s context and personal history 2 an overview of his literature followed by an analysis of aspects of Lasallian pedagogical spirituality evidenced in that literature according to five pedagogical elements the teacher the student the teacher student relationship the activity of teaching and the school in general and 3 a contemporary articulation of the Lasallian basic operative commitments that characterize his spirituality today along with their implications for the formation of Lasallian educators Extrapolating from the life and writings of De La Salle ten Lasallian operative commitments are proposed The commitments are presented in the form of attributes that may be applied to Lasallian institutions and their pedagogical components 1 centered in and nurtured by the life of faith 2 trusting providence in discerning God s will 3 with creativity and fortitude 4 through the agency the Holy Spirit 5 incarnating Christian paradigms dynamics 6 with practical orientation 7 devoted to education accessible and comprehensive 8 committed to the poor 9 working in association 10 expressing a lay vocation The dissertation concludes by presenting teacher formation structures and strategies for introducing Lasallian operative commitments and by providing a Lasallian Mission and Vision Statement
