The Alchemy Reader Stanton J. Linden,2003-08-28 The Alchemy Reader is a collection of primary source readings on alchemy and hermeticism which offers readers an informed introduction and background to a complex field through the works of important ancient medieval and early modern alchemical authors Including selections from the legendary Hermes Trimegistus to Robert Boyle and Isaac Newton the book illustrates basic definitions conceptions and varied interests and emphases and it also illustrates the highly interdisciplinary character of alchemical thought and its links with science and medicine philosophical and religious currents the visual arts and iconography and especially literary discourse Like the notable anthologies of alchemical writings published in the sixteenth and seventeenth centuries it seeks to counter the problem of an acute lack of reliable primary texts and to provide a convenient and accessible point of entry to the field

Jung and the Alchemical Imagination Jeffrey Raff,2000-11-15 Jung and the Alchemical Imagination illustrates the spiritual nature of Jungian psychology and the debt it owes to the tradition of esoteric religion Unlike other books on Jung and alchemy which contain a psychological interpretation of alchemical material this work uses alchemy to understand the three cornerstones of Jungian spirituality the self the transcendent function and active imagination Through the interpretation of alchemical imagery Raff explains the nature of these three concepts and illustrates how together they form a new model of contemporary Western spirituality This book is also unique in selecting alchemical texts for analysis that are relatively unknown and which for the most part have never been interpreted In addition he presents two new concepts the ally and the psychoid realm Through the addition of these ideas and the new understanding that they offer it is possible to apply alchemical imagery to transpsychic experience that is to a world of spirits which may not be reduced to psychological concepts By including this realm in the study of alchemy and Jungian thought it is possible to gain insights into the nature of visionary and ecstatic experiences that form part of the path of individuation the road to completion **The**
