 chart comprising sixteen key questions ranging from Is truth a property to Is truth epistemically constrained K nne expounds
 and engages with the ideas of many thinkers from Aristotle and the Stoics to Continental analytic philosophers like Bolzano
 Brentano and Kotarbinski to such leading figures in current debates as Dummett Putnam Wright and Horwich He explains
 many important distinctions between varieties of correspondence for example between different conceptions of making true
 between various kinds of eternalism and temporalism which have so far been neglected in the literature K nne argues that it
 is possible to give a satisfactory modest account of truth without invoking problematic notions like correspondence fact or
