FOOLED BY RANDOMNESS THE BLACK SWAN THE BED OF PROCRUSTES ANTIFRAGILE SKIN IN THE GAME *The Black Swan: Second Edition* Nassim Nicholas Taleb, 2010-05-11 The most influential book of the past seventy five years a groundbreaking exploration of everything we know about what we don't know now with a new section called On Robustness and Fragility A black swan is a highly improbable event with three principal characteristics It is unpredictable it carries a massive impact and after the fact we concoct an explanation that makes it appear less random and more predictable than it was The astonishing success of Google was a black swan so was 9 11 For Nassim Nicholas Taleb black swans underlie almost everything about our world from the rise of religions to events in our own personal lives Why do we not acknowledge the phenomenon of black swans until after they occur Part of the answer according to Taleb is that humans are hardwired to learn specifics when they should be focused on generalities We concentrate on things we already know and time and time again fail to take into consideration what we don't know We are therefore unable to truly estimate opportunities too vulnerable to the impulse to simplify narrate and categorize and not open enough to rewarding those who can imagine the impossible For years Taleb has studied how we fool ourselves into thinking we know more than we actually do We restrict our thinking to the irrelevant and inconsequential while large events continue to surprise us and shape our world In this revelatory book Taleb will change the way you look at the world and this second edition features a new philosophical and empirical essay On Robustness and Fragility which offers tools to navigate and exploit a Black Swan world Taleb is a vastly entertaining writer with wit irreverence and unusual stories to tell He has a polymathic command of subjects ranging from cognitive science to business to probability theory Elegant startling and universal in its applications The Black Swan is a landmark book itself a black swan

The Black Swan Nassim Nicholas Taleb, 2009-10-13 In the author's point of view a black swan is an improbable event with three principal characteristics It is unpredictable it carries a massive impact and after the fact we concoct an explanation that makes it appear less random and more predictable than it was Why do we not acknowledge the phenomenon of black swans until after they occur Part of the answer according to Taleb is that humans are hardwired to learn specifics when they should be focused on generalities We concentrate on things we already know and time and time again fail to take into consideration what we don't know We are therefore unable to truly estimate opportunities too vulnerable to the impulse to simplify narrate and categorize and not open enough to rewarding those who can imagine the impossible

Rat Roads Jacques Pauw, 2012-11-20 In this extraordinary book celebrated journalist Jacques Pauw gives a human face to some of the most tumultuous events in recent African history Rat Roads chronicles the

remarkable journey of Kennedy Gihana a young Tutsi man who fought against the genocidaires in Rwanda but was part of an army that committed horrifying atrocities in Africa's bloodiest conflict Seeking education instead of war he walked thousands of kilometres to South Africa where he slept in parks lived on the street and worked as a low paid security guard until he had saved enough money to enrol for a law degree In 2011 he took the podium at the University of Pretoria to receive a master's degree in international law *Rat Roads* combines many strands of life in Africa Besides being the chronicle of one man's incredible journey it addresses issues such as civil conflict xenophobia and the plight of refugees It also explores the nature of war crimes and guilt and gives insight into present day Rwanda showing how one tyranny has replaced another *Rat Roads* is a searing story of hardship and survival and an unforgettable tale of courage and triumph

Fooled by Randomness
Nassim Nicholas Taleb, 2016 Nassim Nicholas Taleb's landmark *Incerto* series is an investigation of luck uncertainty probability opacity human error risk disorder and decision making in a world we don't understand in nonoverlapping and standalone books All four volumes *Antifragile* *The Black Swan* *Fooled by Randomness* and the expanded edition of *The Bed of Procrustes* updated with more than 50 percent new material are now together in one boxed set **ANTIFRAGILE** Startling richly crammed with insights stories fine phrases and intriguing asides *The Wall Street Journal* Just as human bones get stronger when subjected to stress and tension many things in life benefit from disorder volatility and turmoil What Taleb has identified and calls antifragile is that category of things that not only gain from chaos but need it in order to survive and flourish The resilient resists shocks and stays the same the antifragile gets better and better What is crucial is that the antifragile loves errors as it incurs small harm and large benefits from them Spanning politics urban planning war personal finance economic systems and medicine in an interdisciplinary and erudite style *Antifragile* is a blueprint for living in a Black Swan world **THE BLACK SWAN** A book that altered modern thinking *The Times* London A black swan is a highly improbable event with three principal characteristics It is unpredictable it carries a massive impact and after the fact we concoct an explanation that makes it appear less random and more predictable The astonishing success of Google was a black swan so was 9/11 In this groundbreaking and prophetic book Taleb shows that black swan events underlie almost everything about our world from the rise of religions to events in our own personal lives and yet we especially the experts are blind to them **FOOLED BY RANDOMNESS** *Fooled by Randomness* is to conventional Wall Street wisdom approximately what Martin Luther's ninety five theses were to the Catholic Church Malcolm Gladwell *The New Yorker* Are we capable of distinguishing the fortunate charlatan from the genuine visionary Must we always try to uncover nonexistent messages in random events *Fooled by Randomness* is about luck more precisely about how we perceive luck in our personal and professional experiences Set against the backdrop of the most conspicuous forum in which luck is mistaken for skill the markets *Fooled by Randomness* is an irreverent eye opening and endlessly entertaining exploration of one of the least understood forces in our lives **THE BED OF PROCRUSTES** Taleb's crystalline nuggets of thought stand alone like esoteric poems *Financial Times* This collection of

aphorisms and meditations expresses Taleb's major ideas in ways you least expect. The Bed of Procrustes takes its title from Greek mythology, the story of a man who made his visitors fit his bed to perfection by either stretching them or cutting their limbs. With a rare combination of pointed wit and potent wisdom, Taleb plows through human illusions, contrasting the classical views of courage, elegance, and erudition against the modern diseases of nerdiness, philistinism, and phoniness.

History and Memory after Auschwitz Dominick LaCapra, 2018-09-05 The relations between memory and history have recently become a subject of contention, and the implications of that debate are particularly troubling for aesthetic, ethical, and political issues. Dominick LaCapra focuses on the interactions among history, memory, and ethico-political concerns as they emerge in the aftermath of the Shoah. Particularly notable are his analyses of Albert Camus's novella *The Fall*, Claude Lanzmann's film *Shoah*, and Art Spiegelman's comic book *Maus*. LaCapra also considers the Historians' Debate in the aftermath of German reunification and the role of psychoanalysis in historical understanding and critical theory. In six essays, LaCapra addresses a series of related questions: Are there experiences whose traumatic nature blocks understanding and disrupts memory while producing belated effects that have an impact on attempts to address the past? Do some events present moral and representational issues even for groups or individuals not directly involved in them? Do those more directly involved have special responsibilities to the past and the way it is remembered in the present? Can or should historiography define itself in a purely scholarly and professional way that distances it from public memory and its ethical implications? Does art itself have a special responsibility with respect to traumatic events that remain invested with value and emotion?

Günter Grass and His Critics Siegfried Mews, 2008 A comprehensive narrative overview and analysis of the criticism of the controversial German author's works. When the Swedish Academy announced that Günter Grass had been awarded the 1999 Nobel Prize for Literature, it singled out his first novel *The Tin Drum* (1959, English translation 1963) as a seminal work that had signaled the postwar rebirth of German letters, auguring a new beginning after decades of linguistic and moral destruction. Nearly fifty years after its publication, the novel's significance has been generally acknowledged; it is the uncontested favorite among Grass's works of fiction on the part of reading public and critics alike, yet its canonical status tends to obscure the decidedly mixed and even hostile reactions it initially elicited. Along with *The Tin Drum*, Grass's impressive body of literary work since the 1950s has spawned a cottage industry of Grass criticism, making a reliable guide through the thicket of sometimes contradictory readings a definite desideratum. Siegfried Mews fills this lacuna in Grass scholarship by way of a detailed but succinct, descriptive as well as analytical and evaluative overview of the scholarship from 1959 to 2005. Grass's politically motivated interventions in public discourse have kept him highly visible, blurring the boundaries between politics and aesthetics. Mews therefore examines not only academic criticism but also the daily and weekly press and other news media, providing additional insight into the reception of Grass's works. Siegfried Mews is Professor of German at the University of North Carolina at Chapel Hill.
