On the Ground After September 11 Yael Danieli, Robert L. Dingman, 2014-07-16 A heartfelt collection of extraordinary first person accounts that delve into every level of the experience of 9/11. Out of the infamy of 9/11 and its aftermath, people rose up with courage and determination to meet formidable challenges. *On the Ground After September 11: Mental Health Responses and Practical Lessons Gained* is a stirring compilation of over a hundred personal and professional first-hand accounts of the entire experience from the moment the first plane slammed into the North Tower of the World Trade Center to the months mental health professionals worked to ease the pain and trauma of others even while they themselves were traumatized. This remarkable chronicle reveals the breadth and depth of human need and courage along with the practical organizational considerations encountered in the responses to terrorist attacks. The goal of any terrorist act is to instill psychosocial damage to a society to effect change. *On the Ground After September 11* provides deep insight into the damage the attack had on our own society, the failures and victories within our response systems, and the path of healing that mental health workers need to travel to be of service to their clients. Personal accounts written by the professionals and public figures involved reveal the broad range of responses to this traumatic event and illuminate how mental health services can most effectively be delivered. Through the benefit of hindsight, recommendations are described for ways to better finance assistance, adapt the training of mental health professionals, and modify organizations' response to the needs of victims in this type of event. Reading these unique personal accounts of that day and the difficult days that followed provides a thoughtful, moving, rational view of what is truly needed in times of disaster. *On the Ground After September 11* includes the first person experiences and lessons learned from the people of NYU Downtown Hospital, NYC Department of Health and Mental Hygiene, NY Metropolitan Transportation Council, St. Paul's Chapel, St. Vincent Hospital, Manhattan Safe Horizon, LifeNet, WTC Incident Command Center at NYC Medical Examiner's office, New Jersey's Project Phoenix, Massachusetts Department of Mental Health, the military psychiatric response to the Pentagon attack, Connecticut's Center for Trauma Response, Recovery and Preparedness, the Staten Island Relief Center, Barrier Free Living, Inc. for people with disabilities, the Federal Emergency Management Agency, Alianza Dominicana, Inc., Staten Island Mental Health Society, the United Airlines Emergency Response Team for Flight 93, The Center for Trauma Response, Recovery and Preparedness, CTRP, Disaster Mental Health Services, DMHS at Dulles International Airport, the American Red Cross, the Respite Center at the Great White Tent, HealthCare Chaplaincy, The Salvation Army, the Islamic Circle of North America, The Coalition of Voluntary Mental Health Agencies, Inc., F.E.G.S., the Jewish Board of Family and Children's Services, JBFCS, and many, many more. *On the Ground After September 11: Mental Health Responses and Practical Lessons Gained* poignantly illustrates that regardless of profession, culture, religion, or age, every life touched by 9/11 will never be the same.
