Women and Empire Tai Edwards, 2018-05-07 The Osage empire as most histories claim was built by Osage men's prowess at hunting and war. But as Tai S Edwards observes in *Osage Women and Empire*, Osage cosmology defined men and women as necessary pairs in their society; hunting and war like everything else involved both men and women. Only by studying the gender roles of both can we hope to understand the rise and fall of the Osage empire. In *Osage Women and Empire*, Edwards brings gender construction to the fore in the context of Osage history through the nineteenth century. Edwards's examination of the Osage gender construction reveals that the rise of their empire did not result in an elevation of men's status and a corresponding reduction in women's. Consulting a wealth of sources, both Osage and otherwise, ethnographies, government documents, missionary records, traveler narratives, Edwards considers how the first century and a half of colonization affected Osage gender construction. She shows how women and men built the Osage empire together. Once confronted with US settler colonialism, Osage men and women increasingly focused on hunting and trade to protect their culture and their traditional social structures, including their system of gender complementarity, endured. Gender, in fact, functioned to maintain societal order and served as a central site for experiencing, adapting to, and resisting the monumental change brought on by colonization. Through the lens of gender and by drawing on the insights of archaeology, ethnography, linguistics, and oral history, *Osage Women and Empire* presents a new, more nuanced picture of the critical role of men and women in the period when the Osage rose to power in the western Mississippi Valley and when that power later declined on their Kansas reservation.

Leadership in Interprofessional Health Education and Practice Charlotte Brasic Royeen, Gail M. Jensen, Robin Ann Harvan, 2008-10-30 The changing landscape of health care continues to grow more diverse. As young health professionals move into clinical practice and face challenging health demands and increasing health care costs, they must be prepared to work in interprofessional teams despite a lack of experience in team-based skills. *Interprofessional Healthcare Education and Practice for Rural and Underserved Populations* represents a collective response to this problem from educators, clinicians, and community health leaders to create a resource for interprofessional education and practice. Divided into five sections, this book includes the necessary information to encourage dialogue, debate, and action in interprofessional education needed to meet the health care needs for the present and the future.

Indian Affairs: Laws, Compiled to March 4, 1927 United States, 1929 *Indian Education in the American Colonies, 1607-1783*, 2007-07-01 Armed with Bible and primer, missionaries and teachers in colonial America sought in their words to Christianize and civilize the native heathen. Both the attempts to transform Indians via schooling and the Indians' reaction to such efforts are closely studied for the first time in *Indian Education in the American Colonies, 1607-1783*. Margaret Connell Szasz's remarkable synthesis of archival and published materials is a detailed and engaging story told from both Indian and European perspectives. Szasz argues that the most intriguing dimension of colonial Indian education came with the individuals who tried to work across cultures. We learn of the remarkable accomplishments of two Algonquian students at Harvard and of the Creek woman Mary Musgrove who enabled

James Oglethorpe and the Georgians to establish peaceful relations with the Creek Nation and of Algonquian minister Samson Occom whose intermediary skills led to the founding of Dartmouth College The story of these individuals and their compatriots plus the numerous experiments in Indian schooling provide a new way of looking at Indian white relations and colonial Indian education **Laws. Compiled to March 4, 1927** United States, 1929 *Feminist Ethnography* Dána-Ain Davis, Christa Craven, 2022-03-01 *Feminist Ethnography* Second Edition is an interdisciplinary and cross cultural introduction to the methods challenges and possibilities of feminist ethnography Dána-Ain Davis and Christa Craven use a problem based approach focused on inquiry and investigation to present a feminist framework for thinking critically about how we document everyday experiences The book begins with an introduction to feminist perspectives their meanings over time and a brief history of feminist ethnography Then the authors examine feminist methodologies answering the question how does one do feminist ethnography and investigates common challenges such as ethical dilemmas and logistical constraints faced during fieldwork Finally Davis and Craven discuss what it means to be a feminist activist ethnographer including advocacy efforts and engagement with public policy and ask students to consider what is your vision for the future of feminist ethnography New to this Edition Six new interviews with feminist ethnographers include reflections on the intersections of trans studies disability studies and the Cite Black Women movement New section on safety accessibility and fieldwork to address the risks all ethnographers face but in particular those who challenge long held assumptions that ethnographers are all white Western able bodied well funded cisgender and usually male Enhanced discussion of virtual ethnography in the wake of COVID 19 Added content on transgender nonbinary experiences and disability studies **Standing Bear's Quest for Freedom** Lawrence A. Dwyer, 2022 Lawrence A Dwyer has written the story of Chief Standing Bear of the Ponca Nation who was willing to face arrest for leaving the government's reservation without permission because of his love for his son and his people and a desire to be free resulting in the First Civil Rights victory for Native Americans
