Sinosoviet Border Dispute In The 1970s:

The Sino-Soviet Border Dispute in the 1970's Tsien-hua Tsui, 1983 This dispute has become one of the major causes of the Sino Soviet rift in the ensuing years and continues to loom as a crucial determinant of the future relationship between these two great powers The book is based on original research in Chinese Russian and English sources **Sino-Soviet Conflict in the 1970s** Kenneth Lieberthal, 1978 Analyzes the evolution of Sino Soviet relations since the Cultural Revolution and explains China's policies in terms of political struggles which racked Peking during the 1970s Key questions are explored What bilateral strategies have the Soviet Union and China adopted to deal with each other since 1969 How has the Moscow Peking feud affected dealings with other states How have Sino Soviet relations intertwined with domestic politics in China What changes in relations are likely in coming years What are the implications of these factors for U S policy toward Sino Soviet affairs The analysis concludes that American interests are best served by a Sino Soviet relationship poised between rapprochement and war The author argues that the dynamics of the relationship will very likely produce such an outcome As well the United States should pursue bilateral relationships with Moscow and Peking so as to maximize American interests without trying to affect their interactions with each other The Philosophy of Chinese Military Culture W. Mott, J. Kim, 2006-04-02 Drawing on ancient texts and modern interpretations this work explores the foundations for war in China's strategic culture Shih Li and Tao The work uses Shih theory to explain the anomalies that continue to perplex Euro American observers in modern China's uses of force **The Cold War in Asia** J. Bruce Amstutz, 1996-12 **The Cambridge History of China: Volume 15, The People's Republic, Part 2, Revolutions Within the Chinese Revolution, 1966-1982** Roderick MacFarquhar, John K. Fairbank, Denis Crispin Twitchett, 1991-11-29 In continuing the post revolution study started in Volume 14 Volume 15 considers the developments in Mao's thoughts and how they related to China's government The most comprehensive account of this turbulent period in Chinese history **China, an Analytical Survey of Literature** United States. Department of the Army, 1978 A History of the Modern Chinese Navy, 1840-2020 Bruce A. Elleman, 2021-05-09 This book provides a comprehensive history of the modern Chinese navy from 1840 to the present Beginning with a survey of naval developments in earlier imperial times the book goes on to show how China has since the mid 19th century four times built or rebuilt its navy after the Opium Wars a navy which was sunk or captured by the Japanese in the war of 1894 1895 during the 1920s and 1930s a navy again sunk or lost to Japan in the war of 1937 1945 in the 1950s a navy built with Soviet help which stagnated following the Sino Soviet split in the early 1960s and finally the present navy which absorbed its predecessor but with the most modern sections dating from the 1990s a navy which continues to grow and prosper The book also shows how the underlying strategic imperative for the Chinese navy has been the defense of China's coasts and major rivers how naval mutiny was a key factor in the overthrow of the Qing and the Nationalist regimes and how successive Chinese governments aware of the potent threat of naval mutiny have restricted the

growth independence and capabilities of the navy Overall the book provides at a time when many people in the West view China and its navy as a threat a rich detailed and realistic assessment of the true nature of the Chinese navy and the contemporary factors that affect its development **Modern Chinese Warfare, 1795-1989** Bruce A. Elleman,2005-07-28 Why did the Chinese empire collapse and why did it take so long for a new government to reunite China Modern Chinese Warfare 1795 1989 seeks to answer these questions by exploring the most important domestic and international conflicts over the past two hundred years from the last half of the Qing empire through to modern day China It reveals how most of China s wars during this period were fought to preserve unity in China and examines their distinctly cyclical pattern of imperial decline domestic chaos and finally the creation of a new unifying dynasty By 1989 this cycle appeared complete but the author asks how long this government will be able to hold power Exposing China as an imperialist country and one which has often manipulated western powers in its favour Bruce Elleman seeks to redress the views of China as a victimised nation

disagreements over territory seventy one disputes involving nearly 40 percent of all sovereign states remain unresolved In this study Krista E Wiegand examines why some states are willing and able to settle territorial disputes while others are not She argues that states may purposely maintain disputes over territory in order to use them as bargaining leverage in negotiations over other important unresolved issues This dual strategy of issue linkage and coercive diplomacy allows the challenger state to benefit from its territorial claim Under such conditions it has strong incentive to pursue diplomatic and militarized threats and very little incentive to settle the dispute over territory Wiegand tests her theory in four case studies three representing the major types of territorial disputes uninhabited islands and territorial waters as seen in tensions between China and Japan over the Senkaku and Diaoyu Islands inhabited tracts of territory such as the North African enclaves of Ceuta and Melilla affecting Morocco and Spain and border areas like the Shebaa Farms dispute between Lebanon and Israel A fourth case study of a dispute between China and Russia represents a combination of all three types settled in 2008 it serves as a negative example All these disputes involve areas that have key strategic and economic importance both region ally and globally

The Long March to Peace M. Taylor Fravel, 2003 This dissertation seeks to understand the settlement and escalation of territorial disputes focusing specifically on disputes involving China Since 1949 China has defused or resolved 18 of its 23 territorial disputes usually receiving 50 percent or less of contested land in the final settlement China has resorted to force in 5 of its disputes but has usually not seized large amounts of land To account for this variation I develop a theory of settlement strategies to explain why leaders cooperate or escalate in territorial disputes
