## Site Supervision:

*Foundations of Art Therapy Supervision* Yasmine J. Awais, Daniel Blausey, 2020-10-19 *Foundations of Art Therapy Supervision* serves as a reference guide for art therapists who have found themselves in supervisor roles without prior training and supervisees hoping to learn what to expect from the supervision relationship and illustrates how to receive and provide clinical art therapy supervision. Written by two art therapists with over 35 years of collective supervision experience, this new resource includes a framework for providing effective supervision in the classroom and in the field, case studies, and art-based supervisory exercises and guidance for new professionals seeking certification or licensure. Chapters weave the authors' supervision experience with a significant literature review and feature explanations on how professional identities (art therapist, psychotherapist, counselor, supervisor, supervisee, administrator, educator, etc.) and personal identities (gender, race, sexuality, etc.) influence the supervisory and therapeutic relationships. This book will teach supervisees how to make the most of their experience while simultaneously providing a comprehensive reference for practicing supervisors. **Critical**

**Incidents in Counselor Education** Jacqueline M. Swank, Casey A. Barrio Minton, 2021-10-25 In this textbook, prominent counselor educators provide guidance on key aspects of counselor education through case incidents in which an educator, student, supervisor, supervisee, researcher, or leader in the field is facing an ethical, moral, legal, or professional dilemma. Forty diverse case scenarios spanning four CACREP Standard domains for doctoral programs focus on the real-world application of theories, concepts, and techniques. The incidents provide multiple perspectives on current issues faced in practice and promote learning opportunities for growth and development through critical thinking, discussion, and reflection. Each incident includes an evaluation of professional issues, a review of applicable ethical codes, a discussion of diversity and inclusion considerations, and an analysis of action steps and outcomes. Monetary and Capital Markets Department, 2024-08-13 The Financial Services Authority (OJK) has made substantial progress in updating its regulatory and supervisory frameworks since the last Financial Stability Assessment Program (FSAP) in 2017. The OJK has strengthened its regulatory framework implementing the Basel III post-crisis reforms. The recently enacted Financial Sector Omnibus Law (FSOL) enhances the OJK's institutional set-up, powers, banking regulation, and supervisory frameworks and clarifies the Financial System Stability Committee's (KSSK's) mandate for systemic risk monitoring and coordination. The OJK has developed supervision capabilities and deployed innovative Supervisory Technologies (SupTech) to achieve greater efficiency in banking supervision. New regulations on corporate governance have elevated the importance of good governance within the banking industry. While progress has been made, the OJK must continue intensifying its efforts considering emerging challenges in the global economic and financial environment and new risks from digitalization, cyber

financing are serious crimes that affect not only those persons directly involved but the economy as a whole According to international standards every bank has the obligation to know its customers and to report suspicious transactions Although

these obligations sound straightforward they have proved challenging to implement What information precisely has to be gathered How should it be recorded If and when does one have to file a suspicious transaction report It is here that a supervisor can play a crucial role in helping supervised institutions first in understanding the full extent of the obligations of Customer Due Diligence and Suspicious Transaction Reports STR and second in ensuring that those obligations are not just words on paper but are applied in practice Effective supervision is key to the success of a country's AML CFT system In this regard field work in both developed and developing countries has shown an overall low compliance in the area of supervision of banks and other financial institutions supervisory compliance is indeed generally lower than the average level of compliance with all Financial Action Task Force recommendations As a result by providing examples of good practices this book aims to help countries better conform to international standards In this regard this handbook is specifically designed for bank supervisors
