Skidmore Owings And Merrill Selected And Current Works:

Skidmore, Owings & Merrill, 1995 **SOM; Architecture of Skidmore, Owings & Merrill, 1984-1994** Stephen Dobney, 1995 *Skidmore, Owings & Merrill* Nicholas Adams, 2007 Surveys thirty of the most iconic buildings designed by Skidmore Owings Merrill SOM the legendary American architecture firm since its founding in 1936 The Oxford Dictionary of Architecture James Stevens Curl, Susan Wilson, 2015-02-26 Containing over 6 000 entries from Aalto to Zwinger and written in a clear and concise style this authoritative dictionary covers architectural history in detail from ancient times to the present day It also includes concise biographies of hundreds of architects from history excluding living persons from Sir Francis Bacon and Imhotep to Liang Ssu ch eng and Francis Inigo Thomas The text is complemented by over 260 beautiful and meticulous line drawings labelled cross sections and diagrams These include precise drawings of typical building features making it easy for readers to identify particular period styles This third edition of The Oxford Dictionary of Architecture has been extensively revised and expanded with over 900 new entries including hundreds of definitions of garden and landscape terms such as Baroque garden floral clock hortus conclusus and Zen garden design Each entry is followed by a mini bibliography with suggestions for further reading The full bibliography to the first edition previously only available online has also been fully updated and expanded and incorporated into this new edition This is an essential work of reference for anyone with an interest in architectural and garden history With clear descriptions providing in depth analysis it is invaluable for students professional architects art historians and anyone interested in architecture and garden design and provides a fascinating wealth of information for the general reader **Participatory Practice in Space, Place, and Service Design** Kelly L. Anderson, Graham Cairns, 2022-10-18 Participatory Practice in Space Place and Service Design is premised on a belief in the importance of participatory practices in finding creative solutions to the plethora of problems we face today It argues that engaging professions with the public in mutual exploration analysis and creative thinking is essential It not only ensures better quality products places services and a greater sense of civic agency but also facilitates fuller access to them and the life opportunities they can unleash This book offers a uniquely varied perspective of the myriad ways in which participatory practices operate across disciplines and how they impact the worlds and communities we create and inhabit This book suggests that participatory practices are multi disciplinary and relevant in fields as diverse as design architecture education health care sustainability and community activism to name a few of those discussed here How do designed objects and environments affect wellness creativity learning and a sense of belonging How do products and services affect everyday experience and attitudes towards issues such as sustainability How does giving people a creative voice in their own education services and built environments open up their potential and strengthen identity and civic agency Addressing these questions requires a rethinking of relations between people objects and environments it demands attention to space place and services **Big and Green** David Gissen, 2002 More than a century after its inception the skyscraper has

finally come of age Though it has long been lampooned as a venal and inhospitable guzzler of resources a revolutionary new school of skyscraper design has refashioned the idiom with buildings that are sensitive to their environments benevolent to their occupants and economically viable to build and maintain Designed by some of the best known architects in the world these towers are as daring aesthetically as they are innovative environmentally Big and Green is the first book to examine the sustainable skyscraper its history the technologies that make it possible and its role in the future of urban development The book examines more than 40 of the most important recent sustainable skyscrapers including Fox Fowle s Reuters Buildings in New York Norman Foster s Commerzbank in Frankfurt and MVRDV s spectacular Dutch Pavilion from Expo 2000 in Hanover with project descriptions photographs and detailed drawings Interviews with such leaders in the field as Sir Richard Rogers William McDonough and Kenneth Yeang are also included *Architectural Publications Index* ,2001

Computation Works Xavier De Kestelier,Brady Peters,2013-04-15 Architects are now taking advantage of the computer in new ways through experimentation with algorithmic and simulation driven design *Computation Works* The Building of Algorithmic Thought focuses on this emerging theme in design practice showcasing built and soon to be built projects and providing a state of the art in computational design Computational design is considered to be first a design tool and second a series of instruments that can be applied in the creation of architecture It allows architects to incorporate performance analysis and knowledge about material tectonics and the parameters of production machinery Moving towards a new role as hybrid practitioners architects are taking concepts from other disciplines and customising architectural and other CAD software In addition to the discussion of built projects a further series of texts examines new custom software instruments New digital tools provide new modes of representation new methods of evaluation and new techniques for design exploration The development of new computational tools can create more responsive designs allowing architects to explore new design options and to analyse architectural decisions during the design process This issue raises important questions such as How is computation changing the way architects design Are the design tools and methods related to the result What is computational design in the context of architectural practice and How is computation changing the processes of design and construction *The Anxious City* Richard J. Williams,2004 A unique and provocative history of the development of the idea of the city in recent years Key public spaces and buildings in England Europe and the USA are discussed in relation to their socio political context *Eaton's* Bruce Allen Kopytek,2014-10-21 Explore the broad fascinating history of the Eaton s department store empire Exhaustively researched and thoughtfully written by a prominent department store historian Canada s largest and most well known department store Eaton s was an icon of Canadian culture From its founding in 1869 to its famed catalogue and network of large stores spreading coast to coast Eaton s offered something for everyone in grand style Relive the days when this remarkable store was a fixture in every Canadian province and served its customers with a distinctive personality that has all but vanished from the retail landscape *Australian National Bibliography* ,1995

Encyclopedia of Twentieth Century Architecture R. Stephen Sennott, 2004 A balance of sophistication and clarity in the writing authoritative entries and strong cross referencing that links architects and structures to entries on the history and theory of the profession make this an especially useful source on a century of the world's most notable architecture The contents feature major architects firms and professional issues buildings styles and sites the architecture of cities and countries critics and historians construction materials and planning topics schools movements and stylistic and theoretical terms Entries include well selected bibliographies and illustrations Reference that rocks American Libraries May 2005

Women Architects at Work Mary Anne Hunting, Kevin D. Murphy, 2025-02-18 A comprehensive history of the women architects who left their enduring mark on American Modernism In the decades preceding World War II professional architecture schools enrolled increasing numbers of women but career success did not come easily *Women Architects at Work* tells the stories of the resilient and resourceful women who surmounted barriers of sexism racism and classism to take on crucial roles in the establishment and growth of Modernism across the United States Mary Anne Hunting and Kevin D Murphy describe how the Cambridge School of Architecture and Landscape Architecture in Massachusetts evolved for the professional education of women between 1916 and 1942 While alumnae such as Eleanor Agnes Raymond Victorine du Pont Homsey and Sarah Pillsbury Harkness achieved some notoriety others like Elizabeth Ann Campbell Knapp and Louisa Vaughan Conrad have been largely absent from histories of Modernism Hunting and Murphy describe how these innovative practitioners capitalized on social educational and professional ties to achieve success and used architecture to address social concerns including how modernist ideas could engage with community and the environment Some joined women led architectural firms while others partnered with men or contributed to Modernism as retailers of household furnishings writers and educators photographers and designers or fine artists With stunning illustrations *Women Architects at Work* offers new histories of recognized figures while recovering the stories of previously unsung women all of whom contributed to the modernization of American architecture and design

Between Memory and Invention Robert A.M. Stern, 2022-03-08 A capsule history of American architecture since 1960 Wall Street Journal Architect historian and educator Robert A M Stern presents a personal and candid assessment of contemporary architecture and his fifty years of practice For more than fifty years Robert A M Stern has designed extraordinary buildings around the world Founding partner of Robert A M Stern Architects RAMSA Stern was once described as the brightest young man I have ever met in my entire teaching career by Philip Johnson and recently called New York City's most valuable architect by Bloomberg Encompassing autobiography institutional history and lively behind the scenes anecdotes *Between Memory and Invention My Journey in Architecture* surveys the world of architecture from the 1960s to the present and Robert A M Stern's critical role in it The book chronicles Stern's formative years architectural education and half century of architectural practice touching on all the influences that shaped him He details his Brooklyn upbringing family excursions to look at key twentieth century buildings and relationships

with prominent teachers Paul Rudolph and the legendary Vincent Scully among them Stern also recounts the origins of RAMSA and major projects in its history including the new town of Celebration Florida the restoration of Times Square and 42nd Street 15 Central Park West Benjamin Franklin and Pauli Murray Colleges at Yale and the George W Bush Presidential Center as well as references to many clients fellow architects and professional partners who have peopled his extraordinary career By turns thoughtful critical and irreverent this accessible informative account of a life in architecture is replete with personal insights and humor Stern's voice comes through clearly in the text he details his youthful efforts to redraw house plans in real estate ads his relationship to Philip Johnson which began at Yale and was sustained through countless lunches at the Four Seasons his love of Cole Porter and movies from the 1930s and 1940s his struggle to launch an architecture practice in the 1970s in the midst of a recession and his complex association with Disney and Michael Eisner Unsurprisingly New York City plays a big role in *Between Memory and Invention* Stern has a deep commitment to the city and recording its past he is the lead author of the monumental New York book series the definitive history of architecture and urbanism from the late nineteenth century to the present and shaping its future Though now a global practice RAMSA residential towers rise throughout Manhattan to enrich the skyline in the tradition of the luxurious apartment buildings of the 1920s and 1930s Supported by a lively mix of images drawn from Stern's personal archive and other resources this much anticipated memoir is interspersed with personal travel slides images of architectural precedents and the colleagues that have shaped his thinking and photographs of the many projects he discusses With a thoughtful afterword by architectural historian Leopoldo Villardi that delves into Stern's process of putting together this extraordinary autobiographical work *Between Memory and Invention* is a personal candid assessment of a foremost practitioner historian instructor and advocate of architecture today
