Race, Trauma, and Home in the Novels of Toni Morrison Evelyn Jaffe Schreiber,2010-12 In this first interdisciplinary study of all nine of Nobel Laureate Toni Morrison's novels Evelyn Jaffe Schreiber investigates how the communal and personal trauma of slavery embedded in the bodies and minds of its victims lives on through successive generations of African Americans Approaching trauma from several cutting edge theoretical perspectives psychoanalytic neurobiological and cultural and social theories Schreiber analyzes the lasting effects of slavery as depicted in Morrison's work and considers the almost insurmountable task of recovering from trauma to gain subjectivity With an innovative application of neuroscience to literary criticism Schreiber explains how trauma whether initiated by physical abuse dehumanization discrimination exclusion or abandonment becomes embedded in both psychic and bodily circuits Slavery and its legacy of cultural rejection create trauma on individual familial and community levels and parents unwittingly transmit their trauma to their children through repetition of their bodily stored experiences Concepts of home whether a physical place community or relationship are reconstructed through memory to provide a positive self and serve as a healing space for

Morrison's characters Remembering and retelling trauma within a supportive community enables trauma victims to move forward and attain a meaningful subjectivity and selfhood Through careful analysis of each novel Schreiber traces the success or failure of Morrison's characters to build or rebuild a cohesive self starting with slavery and the initial postslavery generation and continuing through the twentieth century with a special focus on the effects of inherited trauma on children When characters attempt to escape trauma through physical relocation or to project their pain onto others through aggressive behavior or scapegoating the development of selfhood falters Only when trauma is confronted through verbalization and challenged with reparative images of home can memories of a positive self overcome the pain of past experiences and cultural rejection While the cultural trauma of slavery can never truly disappear Schreiber argues that memories that reconstruct a positive self whether created by people relationships a physical place or a concept help Morrison's characters to establish subjectivity A groundbreaking interdisciplinary work Schreiber's book unites psychoanalytic neurobiological and social theories into a full and richly textured analysis of trauma and the possibility of healing in Morrison's novels     **Revolution and the Word** Cathy N. Davidson, 2004-09-30 Revolution and the Word remains the classic study of the co emergence of the U S nation and the new literary genre of the novel This expanded edition reframes this foundational study for the next generation of readers as it provides a new introductory survey and critique of the turbulent controversial and productive thinking in literary and cultural theory during the last two decades

Reynolds, Gordon Hutner, 2000-11-26 From the American Revolution to the present the United States has enjoyed a rich and persuasive visual culture These images have constructed sustained and disseminated social values and identities but this unwieldy sometimes untidy form of cultural expression has received less systematic attention than other modes of depicting American life Recently scholars in the humanities have developed a new critical approach to reading images and the cultural work they perform This practice American cultural iconography is generating sophisticated analyses of how images organize our public life The contributions to this volume exhibit the extraordinary scope and interpretive power of this interdisciplinary study while illuminating the dark corners of the nation's psyche Drawing on such varied texts and visual media as daguerreotypes political cartoons tourist posters and religious artifacts these essays explore how pictures and words combine to teach us who we are and who we are not They examine mimesis in elegant portraits of black Freemasons industrial age representations of national parks and postwar photographs of atomic destruction They consider

how visual culture has described and disclosed the politics of racialized sexuality whether subconsciously affirming it in the shadows of film noir or deliberately contesting it through the interethnic incest of John Sayles's Lone Star Students of literature film and history will find that these essays extend the frontier of American studies. ### **Love & Theft**

Eric Lott, 2013-07-10. For over two centuries America has celebrated the same African American culture it attempts to control and repress and nowhere is this phenomenon more apparent than in the strange practice of blackface performance. Born of extreme racial and class conflicts the blackface minstrel show appropriated black dialect music and dance at once applauded and lampooned black culture and ironically contributed to a blackening of America.

Lott exposes minstrelsy as a signifier for multiple breaches the rift between high and low cultures the commodification of the dispossessed by the empowered the attraction mixed with guilt of whites caught in the act of cultural thievery.

This new edition celebrates the twentieth anniversary of this landmark volume. ### **Men Beyond Desire**

David Greven, 2005-09-02. This book explores the construction of male sexuality in nineteenth-century American literature and comes up with some startling findings. Far from desiring heterosexual sex and wishing to bond with other men through fraternity the male protagonists of classic American literature mainly want to be left alone. Greven makes the claim that American men eschewing both marriage and male friendship strive to remain emotionally and sexually inviolate. Examining the work of traditional authors Hawthorne Poe Melville Cooper Irving

Stowe Greven discovers highly untraditional and transgressive representations of desire and sexuality Objects of desire from both women and other men the inviolate males discussed in this study overturn established gendered and sexual categories just as this study overturns archetypal assumptions about American manhood and American literature    **The Culture of Sentiment** Shirley Samuels, 1992-12-17 Samuels's collection of critical essays gives body and scope to the subject of nineteenth century sentimentality by situating it in terms of women's culture and issues of race Presenting an interdisciplinary range of approaches that consider sentimental culture before and after the Civil War these critical studies of American literature and culture fundamentally reorient the field Moving beyond alignment with either pro or anti sentimentality camps the collection makes visible the particular racial and gendered forms that define the aesthetics and politics of the culture of sentiment Drawing on the fields of American cultural history American studies and literary criticism the contributors include Lauren Berlant Ann Fabian Susan Gillman Karen Halttunen Carolyn L Karcher Joy Kasson Amy Schrager Lang Isabelle Lehuu Harryette Mullen Dana Nelson Lora Romero Shirley Samuels Karen Sanchez Eppler Lynn Wardley and Laura Wexler
