Neuromusculoskeletal Examination and Assessment E-Book Nicola J. Petty, 2011-01-27 Now in its fourth edition, this core textbook continues to provide a comprehensive systematic guide to the examination and assessment of patients with neuromusculoskeletal dysfunction. The new edition continues with Nicola Petty at the helm, but she is now joined by a reputable team of specialized clinicians and academics who have contributed to individual chapters. Neuromusculoskeletal Examination and Assessment focuses on the development of technical and clinical reasoning skills involved in differential diagnosis of joint, nerve and muscle tissues. It is designed for physiotherapy manual therapy students and their teachers, but is also ideal for those in the first years of their practice as an educational support for patient care. Provides a logical approach to patient examination to enhance clinical reasoning. Presents key concepts of leading therapists and researchers in the field of manual therapy. Emphasizes a patient-centred approach. Templated step-by-step sequence of illustrations and text creates an accessible tool for use in teaching and practice. New 2-colour drawings and photographs visually demonstrate techniques.

Clinical Assessment For Massage Therapy David Zulak, 2018-06-04 The book brings together a range of examination and assessment techniques which are otherwise only found in a variety of different places. It presents them in a way relevant to massage therapists. The book will be used by MT students to learn of the existence of these techniques and how and when to use them. More experienced MTs will use the book to enhance, update and extend their skills in what is a key area if appropriate therapy is to be given.
