*Death in Jewish Life* Stefan C. Reif, Andreas Lehnardt, Avriel Bar-Levav, 2014-08-27 Jewish customs and traditions about death burial and mourning are numerous diverse and intriguing They are considered by many to have a respectable pedigree that goes back to the earliest rabbinic period In order to examine the accurate historical origins of many of them an international conference was held at Tel Aviv University in 2010 and experts dealt with many aspects of the topic This volume includes most of the papers given then as well as a few added later What emerges are a wealth of fresh material and perspectives as well as the realization that the high Middle Ages saw a set of exceptional innovations some of which later became central to traditional Judaism while others were gradually abandoned Were these innovations influenced by Christian practice Which prayers and poems reflect these innovations What do the sources tell us about changing attitudes to death and life after death Are tombstones an important guide to historical developments Answers to these questions are to be found in this unusual illuminating and readable collection of essays that have been well documented carefully edited and well indexed

**The Book of Revelation and Early Jewish Textual Culture** Garrick V.

Allen, 2017-07-03 Garrick Allen brings the Book of Revelation into the broader context of early Jewish literature. He touches on several areas of scholarly inquiry in biblical studies including modes of literary production, the use of allusions, practices of exegesis, and early engagements with the Book of Revelation.

**A Guide to Early Jewish Texts and Traditions in Christian Transmission** Gabriele Boccaccini, Lorenzo DiTommaso, David Hamidovic, Michael E. Stone, 2019-10-14 The Jewish culture of the Hellenistic and early Roman periods established a basis for all monotheistic religions, but its main sources have been preserved to a great degree through Christian transmission. This Guide is devoted to problems of preservation, reception, and transformation of Jewish texts and traditions of the Second Temple period in the many Christian milieus from the ancient world to the late medieval era. It approaches this corpus not as an artificial collection of reconstructed texts, a body of hypothetical originals, but rather from the perspective of the preserved materials examined in their religious, social, and political contexts. It also considers the other non-Christian channels of the survival of early Jewish materials, including Rabbinic, Gnostic, Manichaean, and Islamic. This unique project brings together scholars from many different fields in order to map the trajectories of early Jewish texts and traditions among diverse later cultures. It also provides a comprehensive and comparative introduction to this new field of study while bridging the gap between scholars of early Judaism and of medieval Christianity.

**Rewriting the Torah** Jeffrey Stackert, 2007 Jeffrey Stackert explores literary correspondences among the pentateuchal legal corpora and especially the relationships between similar laws in Deuteronomy and the Holiness Legislation (Lev 17-26), the so-called Holiness Code, as well as significant parts of the Priestly source elsewhere in the Pentateuch. Resemblances between these law collections range from broad structure to fine detail and include treatments of similar legal topics, correlations with regard to sequence of laws, and precise grammatical and lexical correspondences. Yet the nature and basis of these resemblances persist as debated points among biblical scholars. Through an analysis of the pentateuchal laws on asylum, seventh-year release, manumission, and tithes, the author argues that the Holiness Legislation depends upon both the Covenant Collection and Deuteronomy. He also elucidates the compositional logic of the Holiness legislators, showing that these authors do not simply replicate pre-existing legal content. Rather, they employ a method of literary revision in which they reconceptualize source material according to their own ideological biases. In the end, the Holiness Legislation proves to be a super-law that collects and distills the Priestly and non-Priestly laws that precede it. By accommodating, reformulating, and incorporating various viewpoints from these sources, the Holiness authors create a work that is intended to supersede them all.

Imaging the Early Medieval Bible John Williams, 1999 A unique exploration of the beginnings of biblical illustration and decoration.
