Thai House Its History And Evolution:

The Thai House Ruethai Chaichongrak,2002 The traditional houses of Thailand in wood or bamboo are among the most beautiful examples of Southeast Asian vernacular architecture Using a prefabricated modular system such houses could be taken down and rebuilt in new locations in an era when land was still abundant The book not only traces the history of the Thai house but also explains the building process and the beliefs and complex ceremonies with accompany their construction Beautiful photographs and authoritative texts make this book an invaluable treatise on the Thai House 395 colour 55 b w illustrations

The Thai House Ruthai Čhaičhongrak,2002 The construction of wooden houses raised on stilts which help to escape floods and pests is a phenomenon found across Southeast Asia Over many centuries each country has developed its own unique tradition Thailand is no exception and indeed each of the country s four main regions has developed its own distinctive style making the wooden houses of Thailand among the most widely diverse and beautiful examples of Southeast Asian architecture The Thai House not only traces the history of these versatile buildings but also explains the stages in their construction the beliefs that underlie the positioning of every architectural element and the complex ceremonies celebrating their construction Beautiful photographs and authoritative texts celebrate a wide variety of Thai houses
