Thank God Im Free The James Robison Story:

Thank God, I'm Free! James Robison, 1988 Here is the touching and inspirational story of the author whose life was filled with confusion and bitterness then a successful ministry followed by burnout that led to a redirected ministry Religious Institutions Craig J. Calhoun, 1991 **Journal of American Culture** , 1990 *Religious Fundamentalism* Peter Herriot, 2008-09-25 How does a religious fundamentalist come to embrace a counter cultural world view Fundamentalism can be analysed from a variety of perspectives It is a type of belief system which enables individuals to make sense of their lives and provides them with an identity It is a social phenomenon in which strictly religious people act according to the norms values and beliefs of the group to which they belong It is a cultural product in the sense that different cultural settings result in different forms of fundamentalism And it is a global phenomenon in the obvious sense that it is to be found everywhere and also because it is both a reaction against and also a part of the globalising modern world Religious Fundamentalism deals with all of these four levels of analysis uniquely combining sociological and psychological perspectives and relating them to each other Each chapter is followed by a lengthy case study and these range from a close textual analysis of George W Bush s second inaugural speech through to a treatment of Al Qaida as a global media event This book provides a comprehensive social scientific perspective on a subject of immense contemporary significance and should be of use both to university students and also to students of the contemporary world American Book Publishing Record , 1988

Limitations of religious freedom by privileged state religions (ecclesiae) - particularly in authoritarian states but also in democracies Gerhard Besier, 2021-11-18 The volume deals with the topic of Religious Freedom in Europe and North America although not exclusively The contributions argue that a clear separation of State and Church prevents privileged religions as well as evangelical movements supported by state interests from becoming power political factors that seek to mould a society according to their own values and to their benefit All too often politicians are happy to accept ideological support on behalf of a religious community or a religious grouping and then seek to further the interests and to promote these groups Even though the two countries demonstrate differences such constellations may be identified in both the USA and in Russia
