That Winning Feeling:

That Winning Feeling! Jane Savoie, 1992 **That Winning Feeling!** Jane Savoie, 1997-08-01 Jane Savoie presents a revolutionary approach to riding by which you can train your mind and shape your attitudes to achieve higher levels of skill than every imaged. The book deals with such concepts as luck, worry, dreams, loser's limp, commitment, criticism, frustration, inspiration. You will learn relaxation exercises that will not only rid you of stress and tension but will also enable you to benefit fully from the use of imaging as a working tool to achieve desired ends. And you will skillfully invoke the As If principle to think and behave as if you are already experiencing your wants and needs. The author explains how words and word images play a major role in determining your actions. For example, if you say challenge instead of problem, you will positively enhance your performance. The training chapters take all the general principles and apply them to specific riding situations. The final chapters deal with competition, focusing all the tools and techniques learned earlier on actual performance scenarios. Throughout the informative and spirited text, there are scores of personal anecdotes about some of America's leading riders and their affinity with the ideas and teaching of the author. **Get that Winning Feeling**

From Despair to Delirium Howard Falshaw,2023-11-09 This book began as a series of blog posts each post based on the most recent Carlisle United match It charts the club s decline in the 2021 2022 season to a point in February 2022 when the club found itself in the League Two relegation zone The return of Carlisle born former manager Paul Simpson saw the club embark on a dramatic revival which resulted in Carlisle United comfortably avoiding relegation The author was present at many of those games that ensured the team s climb to safety Following retirement in July 2022 the author was in a position to buy season tickets for himself and his son meaning that they were able to attend about 75% of the club s games in the 2022 2023 season clocking up well over 7 000 miles in the process in addition to the physical journey It was a remarkable metaphorical journey for the club Mild expectation grew into optimism grew into ambition grew into expectation before the remarkable denouement that saw Carlisle win an unlikely promotion to League One in the most dramatic fashion via a penalty shoot out in the play off final at Wembley This book recounts that two season journey blow by blow each post written within two or three days of the relevant game and not revised with the benefit of hindsight It is an essential read for any supporter of Carlisle United but will also resonate with any supporter of a lower league football club who has endured years sometimes decades of disappointment despair and frustration before achieving that brief but precious moment in the sun

Pebbles of Executive Freedom Idanai Emmanuel Genius Zawe,2021-08-16 There is something inherent in the way our minds work that doesn't fit very well with the characteristics shown by the world People who have confidence in their work or ideas who trust themselves to do what needs to be done without hesitation are the ones who become successful I call those people Total Quality Individuals They no longer fear the erratic behavior of this world they have learnt to focus on the positive information that helps them spot opportunities to take advantage of and create lasting success rather than focusing on the negative information that reinforces their fears While this may sound complicated it all boils down to believing that one does not need to know what's going to happen next to be successful every moment is unique meaning every outcome is truly a unique experience Each idea either works or it doesn't in any case you wait for the next edge to appear and go through the process again and again The edge means there is a higher probability of one outcome than another The greater your confidence the easier it will be to execute your ideas In most cases people find it difficult or rather believe that the root cause of their problem is a result of how they think more so how they are thinking while executing their ideas The main objective is to show the reader that it's their attitude and state of mind that determines their results To provide the reader with the specific beliefs and attitudes that are necessary to build a winner's mindset which means learning how to think in probabilities Greatness is achieved by people who are willing to put themselves out there
