That's Bad! on Santa's Journey Margery Cuyler,2009-10-27 While delivering presents on Christmas Eve accident prone Santa has a series of mishaps with both good and bad results That's Good! That's Bad! In Washington, DC Margery Cuyler,2007-06-12 During a class trip to Washington D C a young boy has a series of mishaps with both good and bad results as he and his friends visit the White House the Lincoln Memorial the National Zoo and other landmarks The Epistemology of Desire and the Problem of Nihilism Allan Hazlett,2024-07-12 Most people have wondered whether anything really matters some have temporarily thought that nothing really matters and some philosophers have defended the view that nothing really matters However if someone thinks that nothing matters if they are a nihilist about value then it seems that it is irrational for them to care about anything It seems that nihilism about value mandates total indifference This is the problem of nihilism Allan Hazlett addresses in *The Epistemology of Desire and the Problem of Nihilism* Hazlett argues that the problem of nihilism arises because desire and thus caring is a species of evaluation that admits of irrationality This contradicts the influential Humean view that desire does not admit of irrationality which has a ready solution to the problem of nihilism since desire does not admit of irrationality it cannot be irrational to care about something that you believe does not matter However following G E Anscombe Hazlett argues that desire has the same relationship to goodness as belief has to truth just as truth is the accuracy condition for belief goodness is the accuracy condition for desire This reveals desire as an appropriate target of epistemological inquiry in the same way that belief is an appropriate target of epistemological inquiry Desires can amount to knowledge in the same way that beliefs can amount to knowledge and crucially for the problem of nihilism desire admits of irrationality in the same way that belief admits of irrationality Nevertheless although it is obviously irrational to believe something that you believe is not true Hazlett argues that it is not irrational to desire something you believe is not good despite the fact that goodness is the accuracy condition for desire This provides a solution to the problem of nihilism and shows that nihilism about value can coherently be combined with the anti Humean view that desire is a species of evaluation *Immortality and the Philosophy of Death* Michael Cholbi,2015-12-02 Death comes for us all eventually Philosophers have long been perplexed by how we ought to feel about death Many people fear death and believe that death is bad for the person who dies But is death bad for us and if so how is its badness best explained If we do not

survive death if death is simply a state of nothingness how can death be bad for us If death is bad for us do we have good reason to live as long as possible Would an immortal life really be a good human life or would even an immortal life eventually become tedious and make us long for mortality This volume presents fourteen philosophical essays that examine our attitudes toward mortality and immortality The topics addressed have become more urgent as scientists attempt to extend the human lifespan perhaps even indefinitely This book invites the reader to critically appraise his or her own attitudes toward death and immortality by exploring the ethical metaphysical and psychological complexities associated with these issues

Simplicius: On Epictetus Handbook 27-53 Charles Brittain,Tad Brennan,2014-04-10 The Enchiridion or Handbook of the first century AD Stoic Epictetus was used as an ethical treatise both in Christian monasteries and by the sixth century pagan Neoplatonist Simplicius Simplicius chose it for beginners rather than Aristotle s Ethics because it presupposed no knowledge of logic We thus get a fascinating chance to see how a pagan Neoplatonist transformed Stoic ideas The text was relevant to Simplicius because he too like Epictetus was teaching beginners how to take the first steps towards eradicating emotion although he is unlike Epictetus in thinking that they should give up public life rather than acquiesce if public office is denied them Simplicius starts from a Platonic definition of the person as rational soul not body ignoring Epictetus further whittling down of himself to just his will or policy decisions He selects certain topics for special attention in chapters 1 8 27 and 31 Things are up to us despite Fate Our sufferings are not evil but providential attempts to turn us from the body Evil is found only in the human soul But evil is parasitic Proclus term on good The gods exist are provident and cannot be bought off With nearly all of this the Stoics would agree but for quite different reasons and their own distinctions and definitions are to a large extent ignored This translation of the Handbook is published in two volumes This is the second volume covering chapters 27 53 the first covers chapters 1 26
