Brains and Realities Jay Alfred, 2008-12-16 Can human brains perceive ultimate reality directly And what roles do the left and right hemispheres of the brain play in this Modern physics clearly points out that space and time are illusions The intriguing question is How did mystics two thousand years ago come to the same conclusion without the aid of scientific instruments or advanced mathematics Is there really a time less and space less sphere that we can access here and now by merely switching off or on specific neural circuits in the human brain Would developing the right hemisphere of the brain open up a portal to this ineffable state Is the dominance of the left hemisphere of the brain locking us within spacetime This book aims to answer these questions based on the most recent scientific developments
