Manner, 2020-09-15 Reviewing game film is a discipline that sports teams often incorporate after each game Teams watch game videos to identify mistakes make adjustments consider radical changes and highlight successes The goal of this analysis is to facilitate individual and team improvements that will positively affect subsequent games The fundamental reason why a team needs adjustments is not always evident in the middle of the game But evaluating important elements after a game gives coaches and players the opportunity to review individual plays and players in a more relaxed setting away from the time constraints and pressures of the game So why aren't pastors and worship teams incorporating similar evaluative practices Implementing a collaborative

process of analyzing worship services or planning for upcoming services requires a deep level of humility trust and shared accountability It also requires selfless leaders who are willing to sacrifice their own ideas and interests for the greater worshiping good of the congregation Better Sundays Begin on Mondays offers foundational worship considerations to help leadership teams ask questions evaluatively rather than defensively These weekly reflections encourage worship leaders and their teams to think beyond style to biblical and theological worship content
