Shooting: a Manual of Practical Information ... with Illustrations. MS. Additions Robert BLAKEY, 1854 **Guns in America** Jan E. Dizard, Robert Muth, Stephen P. Andrews, 1999-04 Firearms have long been at the core of US national narratives From the Puritans embrace of such weapons to beat back the devilish Indian to a guilty delight in the illegal exploits of Dirty Harry Americans have relied on the gun to right wrongs both real and imagined **Rural Life described and illustrated, in the management of horses, dogs, cattle ... Illustrated with ... steel engravings** John SHERER, 1868 **Under the Gun** James D. Wright, Peter Henry Rossi, Kathleen Daly, In 1978 the Social and Demographic Research Institute of the University of Massachusetts Amherst received a grant from the National Institute of Justice to undertake a comprehensive review of the literature on weapons crime and violence in the United States The purpose of the project is best described as a sifting and winnowing of the claims and counterclaims from both sides of the Great American Gun War the perennial struggle in American political life over what to do if anything about guns about violence and about crime The review and analysis of the available studies consumed the better part of three years the results of this work are contained in this volume The intention of any review is to take stock of the available fund of knowledge in some topical area Under the Gun is no different our goal has been to glean from the volumes of previous studies those facts that in our view seem firmly and certainly established those hypotheses that seem adequately supported by or at least approximately consistent with the best available research evidence and those areas or topics about which it seems we need to know a lot more than we do One of our major conclusions can be stated in advance despite the large number of studies that have been done many critically important questions have not been adequately researched and some of them have not been examined at all Much of the available research in the area of weapons and crime has been done by advocates for one or another policy position As a consequence the manifest intent of many studies is to persuade rather than to inform We have tried to approach the topic from a purely agnostic point of view treating as an open question what policies should be enacted with regard to

gun or crime control Thus we have tried to judge each study on its own merits on the basis of the routine standards normally applied to social scientific research and not on the basis of how effectively it argues for a particular policy direction It would of course be presumptuous to claim that we have set aside all our own biases in conducting this study Whether or not our treatment is fair and objective is clearly something for the reader and not us to decide **Under the Gun** Peter H. Rossi, 2017-09-29 In 1978 the Social and Demographic Research Institute of the University of Massachusetts Amherst received a grant from the National Institute of Justice to undertake a comprehensive review of the literature on weapons crime and violence in the United States The purpose of the project is best described as a sifting and winnowing of the claims and counterclaims from both sides of the Great American Gun War the perennial struggle in American political life over what to do if anything about guns about violence and about crime The review and analysis of the available studies consumed the better part of three years the results of this work are contained in this volume The intention of any review is to take stock of the available fund of knowledge in some topical area Under the Gun is no different our goal has been to glean from the volumes of previous studies those facts that in our view seem firmly and certainly established those hypotheses that seem adequately supported by or at least approximately consistent with the best available research evidence and those areas or topics about which it seems we need to know a lot more than we do One of our major conclusions can be stated in advance despite the large number of studies that have been done many critically important questions have not been adequately researched and some of them have not been examined at all Much of the available research in the area of weapons and crime has been done by advocates for one or another policy position As a consequence the manifest intent of many studies is to persuade rather than to inform We have tried to approach the topic from a purely agnostic point of view treating as an open question what policies should be enacted with regard to gun or crime control Thus we have tried to judge each study on its own merits on the basis of the routine standards normally applied to social scientific research and not on the basis of how effectively it argues for a particular policy direction It would of course be presumptuous to claim that we have set aside all our own biases in conducting this study Whether or not our treatment is fair and objective is clearly something for the reader and not us to decide **Targeting Guns** Gary Kleck, 2017-07-05 This new paperback comprehensively reviews the research evidence on the links between guns violence and gun control and reports results of the author's own research as well In Targeting Guns Kleck follows the line of argument and careful statistical inference of his earlier prizewinning volume Point Blank while updating the literature reviews and statistical information and adding two chapters Rural Life Described and Illustrated, in the Management of Horses, Dogs, Cattle, Sheep, Pigs, Poultry, Etc., Etc.; Their Treatment in Health and Disease; with Authentic Information on All that Relates to Modern Veterinary Practice John Sherer, 1868 **Scribners Monthly**, 1881 *Ordnance Maintenance* United States.
