Scientist And The Forger, The: Insights Into The Scientific Detection Of Forgery In Paintings Jehane Ragai, 2015-07-22

The scientific techniques described encompass relevant examples of forgery detection and of authentication. The book deals to name a few with the Chagall the Jackson Pollock and the Beltracchi affairs and discusses the Isleworth Mona Lisa as well as La Bella Principessa both thought to be a Leonardo creation. The authentication amongst others of two van Gogh paintings of Vermeer's St Praxedis of Leonardo's Lady with an Ermine and of Rembrandt's Old Man with a Beard are also described. Over the last few decades there has been a disconcerting increase in the number of forged paintings. In retaliation there has been a rise in the use efficiency and ability of scientific techniques to detect these forgeries. The scientist has waged war on the forger. The Scientist and the Forger describes the cutting edge and traditional weapons in this battle showing how they have been applied to the most notorious cases. The book also provides fresh insights into the psychology of both the viewer and the forger shedding light on why the discovery that a work of art is a forgery makes us view it so differently and providing a gripping analysis of the myriad motivations behind the most egregious incursions into deception. The book concludes by discussing the pressing problems faced by the art world today stressing the importance of using appropriate tools for a valid verdict on authenticity. Written in an approachable and amenable style the book will make fascinating reading for non specialists art historians curators and scientists alike.

The Tsarina's Lost Treasure Mara Vorhees, Gerald Easter, 2020-09-01 A riveting history and maritime adventure about priceless masterpieces originally destined for Catherine the Great. On October 1771 a merchant ship out of Amsterdam Vrouw Maria crashed off the stormy Finnish coast taking her historic cargo to the depths of the Baltic Sea. The vessel was delivering a dozen Dutch masterpiece paintings to Europe's most voracious collector Catherine the Great Empress of Russia. Among the lost treasures was The Nursery an oak paneled triptych by Leiden fine painter Gerrit Dou. Rembrandt's most brilliant student and Holland's first international superstar artist Dou's triptych was long the most beloved and most coveted painting of the Dutch Golden Age and its loss in the shipwreck was mourned throughout the art world. Vrouw Maria meanwhile became a maritime legend confounding would be salvagers for more than two hundred years. In July 1999 a daring Finnish wreck hunter found Vrouw Maria upright on the sea floor and perfectly preserved. The Tsarina's Lost Treasure masterfully recounts the fascinating tale of Vrouw Maria her loss and discovery weaving together the rise and fall of the artist whose priceless masterpiece was the jewel of the wreckage. Gerald Easter and Mara Vorhees bring to vivid life the personalities that drove and are still driving this compelling tale evoking Robert Massie's depiction of Russian high politics and culture. Simon Schama's insights into Dutch Golden Age art and art history. Gary Kinder's spirit of danger and adventure on the beguiling Archipelago Sea.

Quid est secretum? Ralph Dekoninck, Agnès Guiderdoni, Walter Melion, 2020-09-10 Quid est secretum. Visual Representation of Secrets in Early Modern Europe 1500-1700 is the companion volume to Intersections 65.1 Quid est sacramentum. Visual Representation of Sacred Mysteries in Early Modern Europe 1400-1700. Whereas the latter

volume focused on sacramental mysteries the current one examines a wider range of secret subjects The book examines how secret knowledge was represented visually in ways that both revealed and concealed the true nature of that knowledge giving and yet impeding access to it In the early modern period the discursive and symbolical sites for the representation of secrets were closely related to epistemic changes that transformed conceptions of the transmissibility of knowledge

An Introduction to Art Charles Harrison, 2020-03-10 At once engaging personal and analytical this book provides the intellectual resources for the critical understanding of art Charles Harrison's landmark book offers an original clear and wide ranging introduction to the arts of painting and sculpture to the principal artistic print media and to the visual arts of modernism and post modernism Covering the entire history of art from Paleolithic cave painting to contemporary art it provides foundational guidance on the basic character and techniques of the different art forms on the various genres of painting in the Western tradition and on the techniques of sculpture as they have been practiced over several millennia and across a wide range of cultures Throughout the book Harrison discusses the relative priorities of aesthetic appreciation and historical inquiry and the importance of combining the two approaches Written in a style that is at once graceful engaging and personal as well as analytical and exact this illuminating book offers an impassioned and timely defense of the importance and value of the firsthand encounter with works of art whether in museums or in their original locations

Beholding Ken Wilber, 2020-05-14 Beholding considers the spatially situated encounter between artwork and spectator It argues that artworks created for specific places or conditions structure a reciprocal encounter which is completed by the presence of a beholder These are works which demand the beholder's share but not as Ernst Gombrich famously claimed to sustain an illusion Rather Beholding reconfigures Gombrich's notion of the beholder's share as a set of licensed imaginative and cognitive projections Each chapter frames a particular work of art from the remit of a complementary theoretical text The book establishes a transhistorical notion of the spatially situated encounter and considers the role of the architectural host in bringing the beholder's orientation into play The book engages a diverse range of practices from Renaissance painting and group portraiture to intermedia practices of installation and performance art Written within the broad remit of reception aesthetics the book proposes a phenomenological theory of beholding argued through an in depth examination of artworks and their spatial contexts selected for their explanatory potential These various encounters allocate different constitutive roles to the beholder bringing not only spatial and temporal orientation into play but also a repertoire of anticipated ideas and beliefs

Rembrandt's Jews Steven Nadler, 2024-05-31 There is a popular and romantic myth about Rembrandt and the Jewish people One of history's greatest artists we are often told had a special

affinity for Judaism With so many of Rembrandt's works devoted to stories of the Hebrew Bible and with his apparent penchant for Jewish themes and the sympathetic portrayal of Jewish faces it is no wonder that the myth has endured for centuries Rembrandt's *Jews* puts this myth to the test as it examines both the legend and the reality of Rembrandt's relationship to Jews and Judaism In his elegantly written and engrossing tour of Jewish Amsterdam which begins in 1653 as workers are repairing Rembrandt's Portuguese Jewish neighbor's house and completely disrupting the artist's life and livelihood Steven Nadler tells us the stories of the artist's portraits of Jewish sitters of his mundane and often contentious dealings with his neighbors in the Jewish quarter of Amsterdam and of the tolerant setting that city provided for Sephardic and Ashkenazic Jews fleeing persecution in other parts of Europe As Nadler shows Rembrandt was only one of a number of prominent seventeenth century Dutch painters and draftsmen who found inspiration in Jewish subjects Looking at other artists such as the landscape painter Jacob van Ruisdael and Emmanuel de Witte a celebrated painter of architectural interiors Nadler is able to build a deep and complex account of the remarkable relationship between Dutch and Jewish cultures in the period evidenced in the dispassionate even ordinary ways in which Jews and their religion are represented far from the demonization and grotesque caricatures the iconography of the outsider so often found in depictions of Jews during the Middle Ages and the Renaissance Through his close look at paintings etchings and drawings in his discussion of intellectual and social life during the Dutch Golden Age and even through his own travels in pursuit of his subject Nadler takes the reader through Jewish Amsterdam then and now a trip that under ever threatening Dutch skies is full of colorful and eccentric personalities fiery debates and magnificent art **Choice** ,1978
