The Book of the Popes (Liber Pontificalis), 1916 **The Book of the Popes (Liber Pontificalis)**, 1965 The Book of the Popes (Liber Pontificalis). 1 - To the Pontificate of Gregory I Louise Ropes Loomis, 2017-07-25 Trieste Publishing has a massive catalogue of classic book titles Our aim is to provide readers with the highest quality reproductions of fiction and non fiction literature that has stood the test of time The many thousands of books in our collection have been sourced from libraries and private collections around the world The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original Our readers see the books the same way that their first readers did decades or a hundred or more years ago Books from that period are often spoiled by imperfections that did not exist in the original Imperfections could be in the form of blurred text photographs or missing pages It is highly unlikely that this would occur with one of our books Our extensive quality control ensures that the readers of Trieste Publishing s books will be delighted with their purchase Our staff has thoroughly reviewed every page of all the books in the collection repairing or if necessary rejecting titles that are not of the highest quality This process ensures that the reader of one of Trieste Publishing s titles receives a volume that faithfully reproduces the original and to the maximum degree possible gives them the experience of owning the original work We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality but also providing value to every one of our readers Generally Trieste books are purchased singly on demand however they may also be purchased in bulk Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates **The Book of the Popes**, 1916 **Book of the Popes (Liber Pontificalis)** Loomis Louise Ropes, 1901 *The Book of the Popes (Liber Pontificalis)* Louise Ropes Loomis, 2017-09-18 Excerpt from The Book of the Popes Liber Pontificalis To the Pontificate of Gregory I The preparation of an English text of the Liber Pontificalis of which the following pages furnish the first installment is some thing more than the translation of a crabbed text crowded with obscure references Even of the great libraries in this country only about ten possess the original in the best working edition if one may judge by library returns and it is doubtful if many more copies of the complete text exist this side of the Atlantic A document which long was viewed as of fundamental importance for the history of the Papacy has thus sunk so completely out of sight as to have become a rather rare curiosity to all but research students of medieval history This is in part due to the character of the work with its forbidding lists of items of local and temporary interest in which only the trained archaeologist can find his way but it is also surely due to the fact that both texts and commentary have hitherto been in foreign languages and are to be found only in costly and rare volumes The English version aims to overcome these difficulties While the narrative portions of the text have been kept in full lists of mere names and figures especially in the case of ordinations have been in part eliminated unless they were of distinct historical interest The narrative when no longer clogged with an undue amount of this material Will be found to run along with something of the swiftness of a medieval

chronicle The archaeologist who alone will miss the discarded portions will turn to the original in any case In the second place sufficient apparatus has been given in the form of explanatory notes to make the narrative clear while bibliographical references furnish a guide to the treatment of the more intricate problems It is hoped therefore that in its new form for the Lz ber Pontz fiealz s has never before been translated into any other tongue this quaint monument of curial historiography will be found to have retained enough of that charm of naive Simplicity which the scholar appreciates in the original to lure the general reader of history into a study of the important facts with which it deals About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Book of the Popes(liber Pontificalis). ,1916 **BK OF THE POPES** Louise Ropes 1874 Loomis,2016-09-10 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant [The Book of the Popes](#) Louise Ropes Loomis,2018 This book is that of the earliest history of the Papacy but even were it provided with the most exhaustive notes it could never furnish by itself an adequate basis for a modern narrative This book is not an attempt to present a history of the Papacy during the first six centuries It is simply the presentation of an ancient text **The Book of the Popes** ,1916
