The Omni Space Almanac:

The Omni Space Almanac Neil McAleer, 1987 Articles deal with the history of space exploration the shuttle program space stations life in space space disasters international space programs spaceships and the colonization of space **The Omni Space Almanac** Neil McAleer, 1989-02 *The 20th Century O-Z* Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography **The 20th Century Go-N** Frank N. Magill, 2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography

Dictionary of World Biography: The 20th century, O-Z Frank N. Magill, Christina J. Moose, Alison Aves, 1999-11 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography **Crowded Orbits** James Clay Moltz, 2014-04-29 Space has become increasingly crowded since the end of the Cold War with new countries companies and even private citizens operating satellites and becoming spacefarers This book offers general readers a valuable primer on space policy from an international perspective It examines the competing themes of space competition and cooperation while providing readers with an understanding of the basics of space technology diplomacy commerce science and military applications The recent expansion of human space activity poses new challenges to existing treaties and other governance tools for space increasing the likelihood of conflict over a diminishing pool of beneficial locations and resources close to Earth Drawing on more than twenty years of experience in international space policy debates James Clay Moltz examines possible avenues for cooperation among the growing pool of space actors considering their shared interests in space traffic management orbital debris control division of the radio

frequency spectrum and the prevention of military conflict Moltz concludes with policy recommendations for enhanced international collaboration in space situational awareness scientific exploration and restraining harmful military activities

The Politics of Space Security James Moltz, 2011-06-29 The past five decades have witnessed often fierce international rivalry in space but also surprising military restraint Now with an increasing number of countries capable of harming U S space assets experts and officials have renewed a long standing debate over the best route to space security Some argue that space defenses will be needed to protect critical military and civilian satellites Others argue that space should be a sanctuary from deployed weapons and military conflict particularly given the worsening threat posed by orbital space debris Moltz puts this debate into historical context by explaining the main trends in military space developments since Sputnik their underlying causes and the factors that are likely to influence their future course This new edition provides analysis of the Obama administration s space policy and the rise of new actors including China India and Iran His conclusion offers a unique perspective on the mutual risks militaries face in space and the need for all countries to commit to interdependent environmentally focused space security

The Politics of Space Security James Clay Moltz, 2008-06-24 At a time when no other country enjoys the advantages that the United States currently reaps from space some U S officials argue that U S space defenses will be needed to protect access to critical military and civilian assets in orbit Others argue that space should be a valuable sanctuary from deployed weapons and military conflict To inform this debate and develop meaningful guidelines for the future Clay Moltz has undertaken the only comprehensive study of the first 50 years of space security highlighting the main trends in military space developments their underlying causes and the factors that are likely to influence their future course What emerges is a picture of surprising military restraint shown by the United States and the Soviet Union in space and the inescapable conclusion that the only way forward is through a multilateral commitment to interdependent environmentally focused space security

Integrating Aerospace Science into the Curriculum Jerry D. Flack, Joan Ray, 1992-04-15 Combining substantive information with hands on activities this book helps you integrate space science with other curricular areas Topics range from our first contemplation of flight to rockets space shuttles hypersonic planes space colonies and space stations

The Unknown Sky John Dwyer, 2000-12-28 Has a Miracle Been Televised From The Moon Something has happened at CATLUM 1 an isolated mission in the lunar highlands The Vatican says it wants to know the truth so does the CIA A media storm trooper and his corporate allies plot a deadly scheme while a scientific team is sent from earth to examine the man at the center of the controversy Is he a saint or a dissolute fraud Two women one tied to the past the other to the future also wonder He may hold the answers if there are any
