The Ontología Del Lenguaje:

Ontología del lenguaje Rafael Echeverría, 2003 **Ontología del lenguaje vs Biología del Amor** Rafael Echeverría, 2016 Un interesante e indispensable debate se ha suscitado a partir de una entrevista de prensa al Doctor Humberto Maturana la misma en que confronta su propuesta de Biología del Amor con la concepción sostenida por Rafael Echeverría conocida como Ontología del Lenguaje En este libro Rafael Echeverría aborda no solo su relación con la obra del Profesor Maturana sino las diferencias conceptuales que separan ambos proyectos intelectuales El autor procura hacerlo con altura de miras concentrándose en hechos y sin comprometer el respeto que confiesa le debe a su persona El autor considera esta tarea no solo importante para profundizar en un debate que en el contexto de la prensa no es posible hacer con el debida extensión sino porque solo así el lector podrá deducir el nivel de autonomía que mi pensamiento exhibe en relación al de Humberto En palabras de Echeverría es indispensable arrancar se alando que no hablo presumiendo tener la verdad en relación a lo que sostendré Estoy consciente de que en este terreno nos movemos exclusivamente al nivel de nuestras interpretaciones Se trata en consecuencia de una confrontación de interpretaciones diferentes Pero el hecho de que ellas lo sean no transforma este esfuerzo en algo banal Diferentes interpretaciones generan acciones y relaciones distintas y estas a su vez producen resultados claramente diferenciados Estos comprometen nuestras acciones futuras pero por sobre todo generan modalidades de vivir y de convivir con los demás y nos proporcionan diferencias en el sentido de vida y niveles de bienestar que no son equivalentes Estrategias para construir la convivencia solidaria en el aula universitaria. Trabajo en equipo y comunicación generadora de mundos Manuel Antonio Velandia Mora, 2006 *Sobre la ontología del ser social / I. Prolegómenos. Cuestiones de principio de una ontología que hoy es posible* Georg Lukács, 2024-09-01 Más de medio siglo después de haber sido terminada por fin sale a luz en lengua española la que es considerada por muchos la obra filosófica más importante de la centuria pasada Sobre la ontología del ser social 1971 Georg Lukács dedicó los últimos diez años de su vida 1961 1971 a la elaboración de una ontología en la que los elementos de la filosofía de Hegel Marx y Hartmann ocupan en lugar central junto a una crítica al positivismo lógico y al existencialismo De las tres piezas que componen el Opus postumum lukacsiano los Prolegómenos la parte Histórica y la parte Sistemática el lector tiene ahora en sus manos la primera de ellas Frank Benseler editor de la publicación de la obra en Alemania 1984 y 1986 afirmaba que no hay muchos ejemplos en la historia de introducciones independientes tan detalladas Esta introducción a la Ontología marxista en donde entran en escena múltiples sistemas ontológicos acompañados de sus respectivos sistemas categoriales es posible que más adelante represente la parte más importante de la Ontología como autodeclaración *Argentina te necesita* Ignacio Campos, 2025-03-10 Argentina te necesita es una invitación a reflexionar tanto individual como colectivamente sobre el pasado el presente y sobre todo el futuro de la Argentina Con un estilo claro y coloquial Ignacio Campos comparte sus vivencias reflexiones y aprendizajes con el objetivo de inspirar a los lectores a ser agentes de una transformación positiva Desde una mirada integradora el libro

aborda temas como el desarrollo social e individual la comunicaci n efectiva y la capacidad de transformar los conflictos en oportunidades Con propuestas concretas en mbitos como el gobierno la tecnolog a el emprendedurismo y la espiritualidad el autor nos recuerda que el cambio debe comenzar en cada uno de nosotros **Resiliencia organizacional (2a ed.)**
