The Orchard Children:

The Orchard Children Rachel Maddux, 1978-05-01 *The Orchard Children's Treasury* Mandy Suhr, 1997 The Orchard Children's Treasury comprises a variety of stories and poems both traditional and contemporary spanning the breadth of the highly acclaimed Orchard list *Latin American Transnational Children and Youth* Victoria Derr, Yolanda Corona, 2020-12-29 *Latin American Transnational Children and Youth* focuses on understanding young people's connection to nature and place within a transnational and Latin American context. It serves to diversify, elaborate, and sometimes challenge the assumptions made in researching people and place and unearths the complexities of a world in which the identity of many is not shaped by a single place or culture but instead by complex interactions among these. Spanning across ages and geographies, the book explores the central themes of sense of place, identity, and environmental action with an emphasis on Latinx and Indigenous communities. This book balances theoretical questions with geographically contextual empirical research. Each section is situated in current interdisciplinary research and provides geographically specific examples of children and youth's perspectives on place, relations, migration, transnationalism, and an emerging demographic of environmentalists. Contributors from Latin America and the United States advance the fields of childhood and youth studies, environmental psychology, geography, sociology, planning, and education. This book looks across the Americas to see how young people experience their worlds and constructively contribute to their places and environments Dependent and Delinquent Children in North Dakota and South Dakota United States. Particular attention is given to the subject curriculum, activity curriculum, and the optimization of the situation. The curriculum is the most important vehicle of children's learning, and the primary school curriculum is vital to children's growth. Drawing on detailed case studies, the book highlights how situation curriculum design is currently affecting traditional Chinese primary schools *The Children's Magazine* Jesse Ames Spencer, A.
