The Origin Of The Family Private Property And The State:

The Origin of the Family, Private Property and the State Friedrich Engels, 2001 Since civilisation is founded on the exploitation of one class by another class its whole development proceeds in a constant contradiction Every step forward in production is at the same time a step backward in the position of the oppressed class that is of the great majority First published in 1884 *The Origin of the Family* is one of the most important works of Marxist theory Basing himself on the research of anthropologist Lewis Henry Morgan Friedrich Engels builds on his revolutionary discovery that the family structure has passed through multiple stages throughout history He shows that ultimately the determining factor in these changes is the economic mode of production Using the method of historical materialism Engels also demonstrates that the oppression of women has not always existed and is not the product of inherent traits Rather it emerged historically with the production of a surplus and the division of society into classes He also shows that the state far from being a neutral arbiter in society arose with the emergence of class society It is ultimately armed bodies of men in defence of the ruling class To commemorate 200 years since Engels birth we are proud to republish this extraordinarily relevant work of scientific socialism This new edition includes an introduction by Rob Sewell placing the text in its historical context and defending the fundamental ideas and method of Marxism which has stood the test of time This book is a must read for all socialists

The Origin of the Family, Private Property and the State Friedrich Engels, 2019-10-07 *The Origin of the Family Private Property and the State in the Light of the Researches of Lewis H Morgan* is an 1884 historical materialist treatise by Friedrich Engels It is partially based on notes by Karl Marx to Lewis H Morgan s book *Ancient Society*

The Origin of the Family Private Property and the State Frederick Engels, 2018-02-19 *The Origin of The Family Private Property and The State* by Frederick Engels Translated By Ernest Untermann The following chapters are in a certain sense executing a bequest It was no less a man than Karl Marx who had reserved to himself the privilege of displaying the results of Morgan s investigations in connection with his own materialistic conception of history which I might call ours within certain limits He wished thus to elucidate the full meaning of this conception For in America Morgan had in a manner discovered anew the materialistic conception of history originated by Marx forty years ago In comparing barbarism and civilization he had arrived in the main at the same results as Marx And just as Capital was zealously plagiarized and persistently passed over in silence by the professional economists in Germany so Morgan s *Ancient Society* was treated by the spokesmen of prehistoric science in England My work can offer only a meager substitute for that which my departed friend was not destined to accomplish But in his copious extracts from Morgan I have critical notes which I herewith reproduce as fully as feasible
