**Walter G. Moss**

## **The Origins Of Autocracy Ivan The Terrible In Russian History:**

The Origins of Autocracy Alexander Yanov, 1981-01-01 Traces the role of Ivan the Terrible in Russian history and the thinking of Russian historians emphasizing the political actions and ideals of the sixteenth century czar as they have shaped Russia's development through the present

The Image of Ivan the Terrible in Russian Folklore Maureen Perrie, 2002-04-11 A study of Ivan the Terrible's depiction in Russian folklore and the controversies surrounding it

Ivan the Terrible in Russian Historical Memory since 1991 Charles J. Halperin, 2021-08-31 Tsar Ivan the Terrible Ivan IV 1533-1584 is one of the most controversial rulers in Russian history infamous for his cruelty He was the first Russian ruler to use mass terror as a political instrument and the only Russian ruler to do so before Stalin Comparisons of Ivan to Stalin only exacerbated the politicization of his image Russians have never agreed on his role in Russian history but his reign is too important to ignore Since the abolition of censorship in 1991 professional historians and amateurs have grappled with this problem Some authors have manipulated that image to serve political and cultural agendas This book explores Russia's contradictory historical memory of Ivan in scholarly pedagogical and political publications

*The Course of Russian History, 5th Edition* Melvin C. Wren, Taylor Stults, 2009-01-08 Now in its fifth edition this definitive history of the Russian land and people builds on its success as a fascinating survey of two thousand years of struggle to harness vast resources and talents into a powerful and cohesive nation From its beginning as a savage and exotic land Russia underwent a complex evolution of political social and religious forces the barbarism of its internal conflicts in seeming contradiction with its goals to advance in the realms of technology art education and high culture From the conflicts of the fantastically wealthy ruling class to the poor and oppressed masses emerged the Communist party and the enigmatic figures whose charismatic manipulation of political power reflected the myriad rulers before them Finally as the modern world watched this great entity collapsed in a devastatingly brief time millennia of precarious conflict proving too much for the tenuous coalescence of twentieth century politics Written in an engaging and accessible style this text presents students with a comprehensive look at the momentous events and legendary figures which helped shape Russia's turbulent history

**Russia, the Roots of Confrontation** Robert Vincent Daniels, 1985 This book examines the historical contrasts between East and West and elucidates the Russian enigma It springs from the thesis that Russia's national character and its international relations can be understood only in light of the traumas and triumphs privation and privileges that the country weathered under the tsars and the Soviets

**Ivan the Terrible** Maureen Perrie, Andrei Pavlov, 2014-07-10 This is the first major re-assessment of Ivan the Terrible to be published in the West in the post-Soviet period It breaks away from older stereotypes of the tsar whether as crazed tyrant and evil genius on the one hand or as a great and wise statesman on the other to provide a more balanced picture It examines the ways in which Ivan's policies contributed to the creation of Russia's distinctive system of unlimited monarchical rule Ivan is best remembered for his reign of terror the book pays due attention to the horrors of his executions tortures and repressions

especially in the period of the oprichnina 1565-72 when he mysteriously divided his realm into two parts one of which was under the direct control of the tsar and his oprichniki bodyguard This work argues that the often gruesome forms assumed by the terror reflected not only Ivan's personal cruelty and sadism but also his religious views about the divinely ordained right of the tsar to punish his treasonous subjects just as sinners were punished in Hell Primarily chronological in its organisation the book focuses on three main aspects of Ivan's power the territorial expansion of the state the mythology rituals and symbols of monarchy and the development of the autocratic system of rule The Drama of Russian Political History Alexander V. Obolonsky, 2003-01-08 In his introduction Alexander Obolonsky notes that Russian history and life are full of paradoxes most of them rather sad Why he asks have the Russians who have not only been endowed by nature with enormous natural human and intellectual resources but who have also developed a great literary and scientific heritage and made significant contributions to world civilization proved unable to arrange the conditions of their own existence to realize their great potential What fundamental deficiency he wonders made this great anomaly possible Alexander Obolonsky has undertaken the formidable task of reinterpreting Russian history from the Time of Troubles and the reign of Ivan the Terrible to perestroika glasnost and the dismantling of the Soviet system under Gorbachev and Yeltsin He seeks to understand the present and assess the social trends that will shape the future through a careful reconsideration of Russia's past In his sweeping analyses of historical trends Obolonsky structures his analytic narrative around two opposed concepts a system centered understanding of social existence in which individuals are viewed as cogs functioning for the sake of the whole and a liberal person centered paradigm in which society seeks to promote the development of the individual Obolonsky distrusts all monistic explanations from Marxism and geopolitics to scientific and technological models He prefers to utilize a variety of variables ethical economic sociopsychological cultural to explain Russian history presenting its course as a long term and ongoing struggle between two competing models of life Obolonsky is neither a determinist nor a romantic In his thought provoking and historically grounded analysis he challenges standard interpretations regarding Russia the USSR the role of political leaders and the Russian people Far from satisfied with Russia's past Obolonsky worries that Russia's future will be tainted by the persistence of an anti individualist mentality and attitudes shaped by centuries of autocratic rule and by a conservative mass consciousness rooted in Russian experience Students of Russian history politics and culture and also those interested in the broader issues of twentieth century society will find this informative magnum opus of a senior Russian scholar insightful and thought provoking A History of Russia Volume 1 Walter G. Moss, 2003-07-01 This new edition retains the features of the first edition that made it a popular choice in universities and colleges throughout the US Canada and around the world Moss's accessible history includes full treatment of everyday life the role of women rural life law religion literature and art In addition it provides many other features that have proven successful including a well organized and clearly written text references to varying historical perspectives numerous illustrations and maps fully updated

bibliographies accompanying each chapter as well as a general bibliography a glossary and chronological and genealogical lists

Ivan the Terrible Isabel de Madariaga, 2006-09-25 Ivan IV the Terrible 1533-1584 is one of the key figures in Russian history yet he has remained among the most neglected. Notorious for pioneering a policy of unrestrained terror and for killing his own son, he has been credited with establishing autocracy in Russia. This is the first attempt to write a biography of Ivan from birth to death, to study his policies, his marriages, his atrocities and his disordered personality and to link them as a coherent whole. Isabel de Madariaga situates Ivan within the background of Russian political developments in the sixteenth century. And with revealing comparisons with English, Spanish and other European courts, she sets him within the international context of his time. The biography includes a new account of the role of astrology and magic at Ivan's court and provides fresh insights into his foreign policy. Facing up to problems of authenticity, much of Ivan's archive was destroyed by fire in 1626 and controversies which have paralyzed western scholarship, de Madariaga seeks to present Russia as viewed from the Kremlin rather than from abroad and to comprehend the full tragedy of Ivan's reign.

*Russian Nationalism, Past and Present* G. Hosking, R. Service, 1998-07-15 This book looks at the past and present condition of Russian nationalism. Its chapters examine the influence of tsarist and Soviet official policies upon national identity and seek to explain the broader political, social and cultural factors which helped or hindered the ambitions of rulers. The changeability of Russian national consciousness is emphasised. Several chapters also highlight the various long-standing inhibitions to the emergence of a consolidated civic nationalism in a Russian Federation which gained its independence at the break-up of the USSR.

## **The Origins Of Autocracy Ivan The Terrible In Russian History** Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the energy of words has become more evident than ever. They have the capability to inspire, provoke, and ignite change.
