New Perspectives on the Persian Gulf United States. Congress. House. Committee on Foreign Affairs. Subcommittee on the Near East and South Asia, 1973 *Silent Teachers* Nil Ö. Palabıyık, 2023-03-17 *Silent Teachers* considers for the first time the influence of Ottoman scholarly practices and reference tools on oriental learning in early modern Europe Telling the story of oriental studies through the annotations study notes and correspondence of European scholars it demonstrates the central but often overlooked role that Turkish language manuscripts played in the achievements of early orientalist Dispersing the myths and misunderstandings found in previous scholarship this book offers a fresh history of Turkish studies in Europe and new insights into how Renaissance intellectuals studied Arabic and Persian through contemporaneous Turkish sources This story hardly has any dull moments the reader will encounter many larger than life figures including an armchair expert who turned his alleged captivity under the Ottomans into bestselling books a drunken dragoman who preferred enjoying the fruits of the vine to his duties at the Sublime Porte and a curmudgeonly German physician whose pugnacious pamphlets led to the erasure of his name from history Taking its title from the celebrated humanist Joseph Scaliger's comment that books from the Muslim world are silent teachers and need to be explained orally to be understood this study gives voice to the many and varied Turkish language books that circulated in early modern Europe and proposes a paradigm shift in our understanding of early modern erudite culture **Information and Knowledge in Internet of Things** Teresa Guarda, Sajid Anwar, Marcelo Leon, Filipe Jorge Mota Pinto, 2021-10-06 This book provides readers with an insight into information and knowledge in the Internet of Things in particular an investigation of data management and processing information extraction technology knowledge management knowledge sharing knowledge co creation knowledge integration and the development of new intelligent services available anytime anywhere by anyone The authors show how IoT enables
