## **The Abc Of Community Law:**

**The ABC of Community Law** Klaus-Dieter Borchardt, 1994 The legal order created by the European Community has become a permanent feature of political reality in the 12 Member States of the European Community On the basis of the European Treaties thousands of decisions are taken each year which have a major impact on the running of the Member States and on the lives of European citizens The individual ceased long ago to be a citizen merely of his town locality or State he is now a Community citizen too The purpose of this publication is to explain the European legal order to those citizens It is addressed primarily to non lawyers and tries to describe the Treaties in terms intelligible to the layman East African Community Law Emmanuel Ugirashebuja, John Eudes Ruhangisa, Tom Ottervanger, Armin Cuyvers, 2017-03-06 East African Community Law provides a comprehensive and open access text book on EAC law Written by leading experts including the president of the EACJ national judges academics and practitioners it provides the most complete overview to date of this increasingly important field Uniquely the book also provides a systematic comparison with EU law EU companion chapters provide concise overviews of EU law and its development offering valuable inspiration for the application and further development of EAC law The book has been written for all practitioners judges civil servants academics and students faced with questions of EAC law It discusses institutional substantive and jurisdictional issues including the nature of EAC law free movement and competition law as well as the reception of EAC law in Partner States The A to Z of the European Union Joaquín Roy, Aimee Kanner, 2009-09-17 Over half a century old and continuing to grow in strength and authority the European Union consists of 25 member states with more on the waiting list and a population of 450 million people Its influence in foreign and domestic affairs and human rights and law reaches far beyond its earlier fields of trade and politics From the initial ideas about integration leading to the Treaty of Paris and the creation of the European Coal and Steel Community to the current reflection on the Treaty establishing a Constitution for Europe The A to Z of the European Union encompasses the most basic elements of the EU and the components that have emerged as a result of them Through the use of maps photographs a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on topics such as leaders personalities institutions enlargements member states internal policies external relations basic theories treaties and law this dictionary tells a clear and complete story about the European Union that will assist those with greater interest in understanding it **National Remedies Before the Court of Justice** Michael Dougan, 2004-12-31 The Court of Justice has delivered an extensive body of caselaw concerning the obligation of domestic courts to provide effective judicial protection to claimants relying upon Community law rights including such landmark judgments as Factortame and Francovich This book offers a critical analysis of the Court's fast changing approach to national procedural autonomy and explores the difficult conceptual framework underpinning the caselaw The author demonstrates how Community intervention in the domestic systems of judicial protection cannot remain unaffected by wider debates about the evolving European

integration project in particular the tension between uniformity and differentiation as competing values influencing the exercise of Community regulatory competence Because of its emphasis on an ideal of uniformity which has become increasingly untenable within the contemporary Community legal order much of the existing academic discourse about national remedies and procedural rules now seems ripe for reconsideration It is argued that the Court's jurisprudence on the decentralised enforcement of Treaty norms needs to be interpreted afresh having regard to the recent growth of regulatory differentiation within the Community system National Remedies Before the Court of Justice provides a challenging account of this crucial field of EU legal studies It includes detailed discussion of issues such as Member State liability in damages Community control over national limitation periods and the principles governing state aid and competition law enforcement This book is of value to academics and practitioners alike
