**The ABC of Sunday Matters** Mark O'Brien,2013-10-01 This book provides reflections on the Sunday Bible readings in the Roman Catholic Lectionary for Years A B and C of the liturgical cycle They previously appeared in separate volumes of Sunday Matters published by ATF Theology in the Dominican Series They have now been combined in this single volume colour coded for easier use and with a revised general introduction and introduction to the Gospel of Matthew Like the previous volumes this one is intended to assist those preparing homilies and those with a desire to understand a little more deeply the readings used in the Sunday liturgy

**Artillery of Heaven** Ussama Makdisi,2011-10-15 The complex relationship between America and the Arab world goes back further than most people realize In Artillery of Heaven Ussama Makdisi presents a foundational American encounter with the Arab world that occurred in the nineteenth century shortly after the arrival of the first American Protestant missionaries in the Middle East He tells the dramatic tale of the conversion and death of As ad Shidyaq the earliest Arab convert to American Protestantism The struggle over this man s body and soul and over how his story might be told changed the actors and cultures on both sides In the unfamiliar multireligious landscape of the Middle East American missionaries at first conflated Arabs with Native Americans and American culture with an uncompromising evangelical Christianity In turn their Christian and Muslim opponents in the Ottoman Empire condemned the missionaries as malevolent intruders Yet during the ensuing confrontation within and across cultures an unanticipated spirit of toleration was born that cannot be credited to either Americans or Arabs alone Makdisi provides a genuinely transnational narrative for this new liberal awakening in the Middle East and the challenges that beset it By exploring missed opportunities for cultural understanding by retrieving unused historical evidence and by juxtaposing for the first time Arab perspectives and archives with American ones this book counters a notion of an inevitable clash of civilizations and thus reshapes our view of the history of America in the Arab world
