The Absoluteness Of Christianity And The History Of Religions:

The Absoluteness of Christianity and the History of Religions Ernst Troeltsch, 1971-01-01 In this seminal work pioneering theologian Ernst Troeltsch raises the question how can we pass beyond the diversity with which history presents us to norms for our faith and for our judgments about life He trenchantly probes the issue of how one religion when viewed historically in the context of other world religions can be universally and absolutely true Though many others since have explored the issue of historical relativism and religious truth few have done so with Troeltsch's determination and incisiveness and for this he has made a lasting contribution to Christian theology and the philosophy of religion The questions Troeltsch poses in this book remain utterly significant for the thoughtful Christian today This reissue of a well known classic includes a foreword by theological titan James Luther Adams *The Absoluteness of Christianity and the History of Religions* Ernst Troeltsch, 1972-01-01

Die Absolutheit Des Christentums und Die Religionsgeschichte. The Absoluteness of Christianity and the History of Religions. (Translated by David Reid.). Ernst TROELTSCH, 1972 **A Guide to the Phenomenology of Religion**

century It approaches these questions by way of the most recent contemporary challenges debates and developments in the field and provides a forum in which contending perspectives are tested and contested by their proponents and opponents Contributors address topics such as the connection between the normative and the scientific approaches to the study of religion the meaning of religion in a context of globalization the relation between religious studies and religious traditions the viability of comparative and cultural studies of religious phenomena and the future of gender studies in religion

The Myriad Christ Terrence Merrigan, Jacques Haers, 2000 Papers gathered here are the fruit of an international congress held at the Faculty of Theology of the Katholieke Universiteit Leuven 18-21 November 1997 Pref *Kantian Reason and Hegelian Spirit* Gary Dorrien, 2015-03-16 Winner 2012 The American Publishers Award for Professional and Scholarly Excellence in Theology and Religious Studies PROSE Award In this thought provoking new work the world renowned theologian Gary Dorrien reveals how Kantian and post Kantian idealism were instrumental in the foundation and development of modern Christian theology Presents a radical rethinking of the roots of modern theology Reveals how Kantian and post Kantian idealism were instrumental in the foundation and development of modern Christian theology Shows how it took Kant's writings on ethics and religion to launch a fully modern departure in religious thought Dissects Kant's three critiques of reason and his moral conception of religion Analyzes alternative arguments offered by Schleiermacher Schelling Hegel and others moving historically and chronologically through key figures in European philosophy and theology Presents notoriously difficult and intellectual arguments in a lucid and accessible manner

The God Who Is Hans Schwarz, 2011-01-01 Who is the God in whom Christians believe Is he just a figment of the human mind as critics of religion claimed in the nineteenth century and as crusading atheists assert again today Since the beginnings of rational thought the brightest minds among humanity have attempted to assert that God does indeed exist But even the so called proofs for God's existence always started with the assumption that there is someone to prove As soon as we move beyond that which is within space and time mere proofs or disproofs no longer suffice Both believers and unbelievers live to a certain degree by faith Yet religion is inextricably connected with human history When we journey through the landscape of religion and witness its gradual unfolding we soon realize that not all religions are equal Though they may be witnesses of the same God the way they talk about God is so different that this not only leads to very different concepts of God but also to different approaches to life on this earth At the end of this long journey we finally arrive at the Judeo Christian tradition which witnesses to the God in whom Christians believe This book seeks to show how this belief matured and what difference this belief still makes today

Fidelity with Plausibility Wesley J. Wildman, 1998-01-15 The task of interpreting the religious significance of Jesus Christ takes shape in this book with the tension determined by two goals fidelity to the classical Christological tradition which draws our attention to Jesus in the first place and plausibility with respect to all forms of contemporary knowledge To ignore the classical tradition is to assume uncritically that contemporary plausibility structures are beyond question while to forsake

plausibility is to embrace the irrationalism of the theological ghetto dweller This book argues that maintaining this tension in our time can be achieved only with a modest interpretation of Jesus Christ one that repudiates the hermeneutical absolutism associated with affirming that Jesus Christ is uniquely exhaustively unsurpassably significant for revelation and salvation

Constructing Reality in Comparative Theology Paul S Chung,2023-01-01 In contemporary Western society the church has been pushed to the margins leading experts to describe the current era as a time after Christendom Many traditional churches and congregations are struggling a condition worsened by the COVID 19 pandemic regulations As the practice of churchgoing wanes the performance of the sacrament is called into question How can we bring the traditional communal experience of sacrament into the modern world A Most Excellent Way Christophe Chalamet,2019-11-21 Faith hope and love are the three core realities of Christian existence Far from being self grounded they are rooted in God s action and being in the gospel of Jesus Christ Reflecting on the meaning these three realities have for us today Christophe Chalamet argues that we gain a deeper understanding of them as we consider them in their interrelation rather than separately The first disciples sometimes described their burgeoning tradition as the Way The apostle Paul who reflected on faith hope and love in his epistles praised love as a most excellent way This book in constructive theology drawing from a wealth of thinkers from the Christian tradition broadly conceived presents faith hope and love as the abiding response to God s faithfulness God s justice and God s love for the sake of this world Twentieth Century Christian Responses to Religious Pluralism David Pitman,2016-02-17 Twentieth Century Christian Responses to Religious Pluralism begins with the recognition that the traditional three fold typology adopted by Christians in responding to other living world religions is no longer adequate and offers a much more sophisticated and developed approach This is accomplished with particular reference to ten key Twentieth Century theologians each of whom had significant influence in the field of inter religious studies both during their lifetime and beyond The author rejects the exclusivism and triumphalism of traditional Christian approaches and argues strongly and persuasively that the future for inter religious relationships lies in what he describes as classical pluralism and in an understanding of the importance of difference for inter faith dialogue Presenting an accessible introduction to the contemporary issues and challenges facing all those engaged in the further development of inter faith relationships dialogue and partnership between the world religions Pitman argues that the future of world peace and prosperity depends on the outcome **Historicism** Sheila Greeve Davaney, No other movement or insight has challenged Christian theology so steeply in the modern period as historicism The two hundred year old notion that concepts ideas and theories all are influenced or occasioned by historical circumstances is today a commonplace in all fields Davaney s authoritative text traces with clarity and skill the history of historicism and its various meanings for the German Enlightenment through its Continental and distinctly American developments to its contemporary postmodern incarnations BOOK JACKET **Modern Christian Theology** Christopher Ben Simpson,2020-01-09 Christopher Ben Simpson tells the story of modern Christian

theology against the backdrop of the history of modernity itself The book tells the many ways that theology became modern while seeing how modernity arose in no small part from theology These intertwined stories progress through four parts In Part I Emerging Modernity Simpson goes from the beginnings of modernity in the late Middle Ages through the Protestant Reformation and Renaissance Humanism to the creative tension between Enlightenments and Awakenings of the eighteenth century Part II The Long Nineteenth Century presents the great movements and figures arising out of these creative tension from Romanticism and Schleiermacher to Ritschlianism and Vatican I Part III Twentieth Century Crisis and Modernity proceeds through the revolutionary theologies of period of the World Wars such as that of Karl Barth or nouvelle theologie this part includes a thorough section on modern Eastern Orthodox theology Finally Part IV The Late Modern Supernova lays out the diverse panoply of recent theologies from the various liberation theologies to the revisionist the secular the postliberal and the postsecular Designed for classroom use this volume includes the following features boxes chart diagrams visual organizations of the information presented included throughout e g lists of key points visual organizations of systematic ideas in a given thinker lists of significant works lists of significant dates brief outlines of the basic structure of some major theological works both a one page chapter title table of the contents and an expanded multipage table of contents chapter at a glance overview outline at the beginning of each chapter specific references to secondary works and key primary works in English translation at the end of chapters

Systematic Theology, Volume 1, Fourth Edition James Leo Garrett, 2014-09-14 Rivals the major systematic theologies of this century Baptist History and Heritage Journal July 1996 One of the characteristics of Garrett's system that needs especially to be noted is its balanced judicious and nearly invariably objective presentation of materials While holding true to the teachings of his own Baptist faith Garrett so carefully and judiciously presents alternatives that teachers and students from other confessional and denominational positions will find his work instructive Consensus 1997 If one is searching for an extensive exposition of the biblical foundations and historical developments of the various loci of systematic theology there is no more complete presentation in a relatively short work than this Pastors will especially find this feature to be a real help in teaching theology It is an indispensable contribution to the task of systematic theology Journal of the Evangelical Theological Society September 1999 Many students and pastors will find all they need here and will in addition be helped to relate their knowledge to recent developments in the theological world The Churchman A Journal of Anglican Theology 1991 A gold mine of helpful material The Christian Century May 29 June 5 1991 No book that I know is more loaded with biblical and theological facts than this one The prodigious research that must have gone into the preparation of this volume is truly mind boggling Faith and Mission Fall 1991 Garrett has provided a massive and scholarly systematic theology from a thoroughly conservative and comprehensive viewpoint The work is well documented in both biblical and historical scholarship and will prove to be a classic William Hendrickson Southern Baptist Theological Seminary One of the most comprehensive concise books of its type available it should receive wide use in the
