The Hidden Life Of Tirol:

The Hidden Life of Tirol Martha Coonfield Ward,1993 This text is an ethnography that describes how the people of this high mountain region put meaning into their collective lives how they organize the social structure of mountain survival In addition the author describes how the Tiroleans have suffered solved major ethnic problems **House Life** Donna Birdwell-Pheasant,Denise Lawrence-Züniga,2020-06-04 This book which fills a gap on the materiality of lived relations examines households within the context of their immediate physical surroundings of home and shows how human interactions are reflected in built forms Houses are dynamic participants in family life in many ways They often pre date the origins and outlast the life spans of their inhabitants but they can exert a powerful influence on the organization of behaviors and the values of family members as well as on the forms and flows of family life across the generations Constituting wealth investment security and inheritance they are an objective in and of themselves in many domestic strategies Drawing on developments within anthropology archaeology architecture and social history the authors demonstrate through detailed case studies how household or family relations can usefully be mined to re situate social theory in both space and time Space boundaries family cycles historic changes migration patterns ethnicity memory and gender are all interrogated for the light they shed on how people interact with the physical world around them and what this means culturally and symbolically Europe is an especially rich focus for this kind of analysis because it is distinguished by its long well documented history and a recent period of intense change *Conceiving the New World Order* Faye D. Ginsburg,Rayna Rapp,1995-07-31 This volume provides an investigation of the dynamics of reproduction Using reproduction as an entry point the authors examine how cultures are produced contested and transformed as people imagine their collective future in the creation of the next generation One Europe, Many Nations James B. Minahan,2000-07-30 Dominating world politics since 1945 the Cold War created a fragile peace while suppressing national groups in the Cold War s most dangerous theater Europe Today with the collapse of Communism the European Continent is again overshadowed by the specter of radical nationalism as it was at the beginning of the century Focusing on the many possible conflicts that dot the European landscape this book is the first to address the Europeans as distinct national groups not as nation states and national minorities It is an essential guide to the national groups populating the so called Old World groups that continue to dominate world headlines and present the world community with some of its most intractable conflicts While other recent reference books on Europe approach the subject of nations and nationalism from the perspective of the European Union and the nation state this book addresses the post Cold War nationalist resurgence by focusing on the most basic element of any nationalism the nation It includes entries on nearly 150 groups surveying these groups from the earliest period of their national histories to the dawn of the 21st century In short essays highlighting the political social economic and historical evolution of peoples claiming a distinct identity in an increasingly integrated continent the book provides both up to date information and historical background on the European

Stokowski, 1996 In the history of Central City and Black Hawk Colorado there have been three great moments exceeding all capacity for imagination and prediction the discovery of gold in 1859 the renewal of Central City's opera in 1932 and the opening of casino gaming in 1991 Gambling was adopted to stimulate the local economy and bring new riches to the Gilpin County towns replicating the accomplishments of previous mining and opera times Yet it was not long after gambling was approved that residents began expressing regrets over what they had lost in the transformation of their community In *Riches and Regrets* Patricia Stokowski traces the development of contemporary Gilpin County gambling from the proposal and campaign stage in 1989 and 1990 through the construction period leading to the opening of casinos in October 1991 and across several years of post opening impacts Combining critical historical perspectives with sociological analyses Stokowski documents the economic social cultural and institutional effects of the gaming development concluding that gambling has produced mixed results for the Gilpin County towns With gambling becoming increasingly popular as an economic development strategy in both rural and urban communities across America *Riches and Regrets* can provide lessons

for other communities seeking their own golden dreams at the card tables and slot machines *Being Human* Mari Womack,1998 This lively innovative book presents cultural anthropology as an adventure focusing on students curiosity about their own participation in humanness and incorporating the excitement of field discoveries throughout Anthropology is presented as a human centered discipline rather than as an abstract conceptual system *The Brokered Image* Kelli Ann Costa,2001 This book presents the brokered image a constructed identity influenced by tourism and the global economy expressed through a variety of displays and performances in rural Tyrol This image of old world simplicity complicates interactions between and among hosts and guests as evidenced in this small mountain village in Austria
