A scroll with a wooden handle, unrolled to reveal the title 'The Megillos' in a large, ornate, blue script font. Below the title, in a smaller, black serif font, is the text 'Rabbi Avigdor Miller on themes from Shir Hashirim, Rus, Echa, Koheles and Esther'. The scroll is set against a dark blue background. A quill pen is visible in the bottom left corner.

## **The Of Megillos:**

**The Spartan Drama of Plato's Laws** Eli Friedland, 2020-02-14 Friedland presents the Laws Plato's longest dialogue as a drama that must be interpreted with close and sustained attention to each of its three characters. He argues that Megillos, seen by most commentators as the most obtuse character in the dialogue, is in fact a man of few words but of surprising capacity for reflection. This capacity and the crisis to which it brings him is key to understanding the Laws' exploration of human nature permanently drawn both to what is beyond and beneath it. The political project outlined in the dialogue with its almost programmatic focus on the mundane is a genuinely philosophical opportunity to consider the relationship between competing demands for human beings between divine and animal nature and also including the always tense but necessary antagonisms and affinities between politics and human sexuality.

Levin, Thomas W. Merrill, Adam Schulman, 2012-07-10 Leon R. Kass has been helping Americans better understand the human condition for over four decades as a teacher, writer, scholar, public champion of the humanities, and defender of human dignity. From bioethics to civic education, from interpreting the Bible to weighing the moral implications of modern science, Kass has offered wisdom, guidance, and instruction. In this volume, fifteen of Kass's admirers, including students, colleagues, and friends, honor his work by reflecting on the broad range of subjects to which he has devoted his life's work. Some of the essays offer interpretations of great works of literature and philosophy, from Homer, Sophocles, and Plato to Rousseau, Franklin, Jane Austen, Hawthorne, and Henry James. Others examine the significance of Leon Kass's work as a bioethicist and Chairman of the President's Council on Bioethics and as an interpreter of the Book of Genesis. The essays collected in *Apples of Gold in Pictures of Silver* offer a sense of the breadth of Kass's interests and insights and of the influence he has had on generations of scholars. The reader is further acquainted with the career of Leon R. Kass by a biographical introduction and a comprehensive listing of his published writings and the courses he has taught.

*Rethinking Orality I* Andrea Ercolani, Laura Lulli, 2022-04-04 The volume deals with the mechanisms of the oral communication in the ancient Greek culture. Considering the critical debate about orality, the analysis of the communicative system in a predominantly oral, aural ancient society implies a reassessment and a deep reconsideration of the traces which orality embedded in the texts transmitted to us. In particular, the focus is on the cultural message, a set of information which is processed and transmitted vertically as well as horizontally by a living being, so to be differently from a genetically encoded information, a culturally defined process. The survey intertwines different approaches: the methodologies of cognitivism, biology, ethology, to analyze the embryonal processes of the cultural messages and the tools of historical and literary analysis to highlight the development of the cultural messages in the traditional knowledge, their codification, transmission, and evolutions in the dialectics between orality and writing. The reconstructed pattern of the mechanisms of cultural messages in a prevailing oral, aural system casts a light on a shadowy aspect of a sophisticated communication system that has long
