The Of Musical Documents

Tobias Bleicker

The Of Musical Documents :

The Book of Musical Documents Paul Nettl, 1948 An anthology of documents pertaining to music history It contains quotations from theoretical works letters memoirs poems archives newspaper and magazine articles etc Page v **Book of Musical Documents** Paul Nettl, 1989-05-01 **Documents of Ancient Greek Music** Egert Pöhlmann, Martin Litchfield West, 2001 This uniquely complete and up to date collection of the surviving remains of ancient Greek music will serve as the standard work of reference for decades to come Since its appearance in 1970 Egert Pöhlmann's *Denkmäler altgriechischer Musik* has been the standard collection of the surviving fragments of ancient Greek music But the publication of many further texts in recent years has put it in urgent need of updating In this new English edition prepared in collaboration with Martin West the number of items has risen to 61 of which 23 are additions to the content of the 1970 book All the texts new and old have been carefully revised against the original documents or photographs and many improved readings have been obtained as a result **Musical Theatre Histories** Millie Taylor, Adam Rush, 2022-10-20 Musical theatre is often perceived as either a Broadway based art form or as having separate histories in London and New York *Musical Theatre Histories* Expanding the Narrative however depicts the musical as neither American nor British but both and more having grown out of frequent and substantial interactions between both centres and beyond Through multiple thematic histories Millie Taylor and Adam Rush take readers on a series of journeys that include the art form's European and American origins African American influences negotiations around diversity national identity and the globalisation of the form as well as revival culture censorship and the place of social media in the 21st century Each chapter includes case studies and key concept boxes to identify explain and contextualise important discussions offering an accessible study of a dynamic and ever evolving medium Written and developed for undergraduate students this introductory textbook provides a newly focused and alternative way of understanding musical theatre history **Russian Music at Home and Abroad** Richard Taruskin, 2016-09-06 This new collection views Russian music through the Greek triad of the Good the True and the Beautiful to investigate how the idea of nation embeds itself in the public discourse about music and other arts with results at times invigorating at times corrupting In our divided post Cold War and now post 9 11 world Russian music formerly a quiet corner on the margins of musicology has become a site of noisy contention Richard Taruskin assesses the political and cultural stakes that attach to it in the era of Pussy Riot and renewed international tensions before turning to individual cases from the nineteenth century to the present Much of the volume is devoted to the resolutely cosmopolitan but inveterately Russian Igor Stravinsky one of the major forces in the music of the twentieth century and subject of particular interest to composers and music theorists all over the world Taruskin here revisits him for the first time since the 1990s when everything changed for Russia and its cultural products Other essays are devoted to the cultural and social policies of the Soviet Union and their effect on the music produced there as those policies swung away from Communist internationalism to traditional Russian nationalism to the

musicians of the Russian postrevolutionary diaspora and to the tension between the compelling artistic quality of works such as Stravinsky's *Sacre du Printemps* or Prokofiev's *Zdravitsa* and the antihumanistic or totalitarian messages they convey. *Russian Music at Home and Abroad* addresses these concerns in a personal and critical way characteristically demonstrating Taruskin's authority and ability to bring living history out of the shadows.

A History of Music at Christ Church Cathedral, Dublin Barra Boydell, 2004 Christ Church cathedral is an Anglican cathedral in a catholic country. Musical and archival sources the most extensive for any Irish cathedral provide a unique perspective on the history of music in Ireland. Christ Church has had a complex and varied history as the cathedral church of Dublin one of two Anglican cathedrals in the capital of a predominantly Catholic country and the church of the British administration in Ireland before 1922. An Irish cathedral within the English tradition yet through much of its history it was essentially an English cathedral in a foreign land. With close musical links to cathedrals in England to St Patrick's cathedral in Dublin and to the city's wider political and cultural life Christ Church has the longest documented music history of any Irish institution providing a unique perspective on the history of music in Ireland. Barra Boydell a leading authority on Irish music history has written a detailed study drawing on the most extensive musical and archival sources existing for any Irish cathedral. The choir its composers and musicians repertoire and organs are discussed within the wider context of city and state and of the religious and political dynamics which have shaped Anglo Irish relationships since medieval times. More than just a history of music at one cathedral this book makes an important contribution to English cathedral music studies as well as to Irish musical and cultural history. BARRA BOYDELL is Senior Lecturer in Music National University of Ireland Maynooth.

Music Retrieval Nicola Orio, 2006 *Music Accessing and Retrieval* is the first comprehensive survey of the vast new field of Music Information Retrieval (MIR). It describes a number of issues which are peculiar to the language of music including forms formats and dimensions of music together with the typologies of users and their information needs. To fulfil these needs a number of approaches are discussed from direct search to information filtering and clustering of music documents. The emphasis is on tools techniques and approaches for content based MIR rather than on the systems that implement them. The interested reader can however find descriptions of more than 35 systems for music retrieval with links to their Web sites. *Music Accessing and Retrieval* can be used as both a guide for beginners who are embarking on research in this relatively new area and a useful reference for established researchers in this field.

The Music of Pavel Haas Martin Ćurda, 2020-06-03 The Czech composer Pavel Haas 1899-1944 is commonly positioned in the history of twentieth century music as a representative of Leo Janáček's compositional school and as one of the Jewish composers imprisoned by the Nazis in the concentration camp of Theresienstadt. However the nature of Janáček's influence remains largely unexplained and the focus on the context of the Holocaust tends to yield a one-sided view of Haas's oeuvre. The existing scholarship offers limited insight into Haas's compositional idiom and does not sufficiently explain the composer's position with respect to broader aesthetic trends and

artistic networks in inter war Czechoslovakia and beyond This book is the first attempt to provide a comprehensive albeit necessarily selective discussion of Haas s music since the publication of Lubom r Peduzzi s life and work monograph in 1993 It provides the reader with an enhanced understanding of Haas s music through analytical and hermeneutical interpretation as well as cultural and aesthetic contextualisation and thus reveal the rich nuances of Haas s multi faceted work which have not been sufficiently recognised so far

Bibliographic Relationships in Music Catalogs Sherry L. Vellucci,1997-11-06

This groundbreaking empirical study of music bibliographic relationships provides the fundamental information necessary to understand the complexities of music cataloging and the impact of these complexities on the structure of the catalog Vellucci s study identifies the characteristics of music scores found in a library collection describes in detail the types of relationships that exist within the world of music materials and discusses the various methods currently used to link related music materials in library catalogs Essential for music libraries and collections
