The Official Planetarium Of Space:

Space Sue Becklake, 1994 *Official Guide to the Smithsonian's National Air and Space Museum, Third Edition*
Smithsonian Institution, 2010-02-01 This fully illustrated guide to the world's most visited aviation and space museum is both an indispensable companion for visitors and a detailed history in itself of humanity's quest for flight. The Smithsonian Institution's National Air and Space Museum maintains the world's largest collection of historic aircraft and spacecraft plus an amazing assortment of other historic objects. Many fascinating items from the twenty-three galleries and two off-site facilities including the Wright Flyer, Chuck Yeager's Bell X-1 and the spacesuits worn by Neil Armstrong and Buzz Aldrin are presented here in 200 full-color photographs accompanied by their equally intriguing stories. **Theaters of Time and Space** Jordan D. Marché, 2005 Every year millions of Americans visit planetariums and are captivated by their strikingly realistic portrayal of the night sky. Today it is indeed difficult to imagine astronomy education without these magnificent celestial theaters. But projection planetariums first developed in Germany have been a part of American museum pedagogy only since the early twentieth century and were not widespread until the 1960s. In this unique social history, former planetarium director and historian of science Jordan D. Marché II offers the first complete account of the community of individuals and institutions that during the period between 1930 and 1970 made planetariums the popular teaching aids they are today. Marché addresses issues such as the role of gender and social developments within the planetarium community, institutional patronage and the popularization of science. He reveals how at different times various groups including financial donors, amateur scientists and government officials viewed the planetarium as an instrument through which they could shape public understanding and perceptions of astronomy and space science. Offering an insightful wide-ranging look into the origins of an institution that has fascinated millions, *Theaters of Time and Space* brings new perspectives to how one educational community changed the cultural complexion of science, helped shape public attitudes toward the U.S. space program and even contributed to policy decisions regarding allocations for future space research. The Planetarium University of Bridgeport, 1966 Astronomical Observations: Astronomy and the Study of Deep Space Britannica Educational Publishing, 2009-10-01 The night sky is positively teeming with wonders from star clusters and nebulae to quasars. Astronomy is the means by which these and other similar phenomena are discovered and observed. This stellar resource traces the path of modern astronomy from initial efforts to map the heavens to today's use of high-tech telescopic devices that help people delve deeper into celestial discovery. Sparkling Space at the Planetarium Fran Manushkin, 2025-08 Katie Woo and JoJo learn about space during a visit to a planetarium. *NASA Report to Educators*, 1988 Report to Educators, 1988 **The Legacy** Thomas Peter Bennett, 2010-12-18 The Legacy South Florida Museum is an account of the origins, founding and development in twentieth-century Florida of a people's museum about archeology, Spanish exploration, manatees and space. As a museum founded in the immediate post-World War II era with its origins in the

prehistoric past its narrative reflects Florida's changes through Spanish exploration statehood tourism endangered manatees and space development over a thousand years The Legacy is a story of volunteerism in the spirit of voluntary action for the common good by dedicated individuals It leads to today's South Florida Museum and its several facilities including the Bishop Planetarium Parker Manatee Aquarium and Spanish Plaza For more information please see the following article from The Herald Tribune <http://www.heraldtribune.com/article/20101130/ARTICLE/113010261238p1tcpg> **Departments of Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriations for Fiscal Year 1995: Corporation for National and Community Service, Department of Veterans Affairs, National Aeronautics and Space Administration, nondepartmental witnesses, Selective Service System** United States.
