The Ongoing Evolution of Latin American Populations Francisco M. Salzano, 1971-01-01 **The Ongoing Evolution of Latin American Populations. Edited by Francisco M. Salzano** Francisco M. Salzano (ed), 1971 **The Origins of Native Americans** Michael H. Crawford, 2001-02-26 A fascinating account of the genetic archaeological and demographic evidence for the peopling of the New World The Ongoing Evolution of Latin American Populations Francisco M. Salzano, 1971 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1971 First multi year cumulation covers six years 1965-70 **Current Developments in Anthropological Genetics** James H. Mielke, 2012-12-06 The papers in this volume were presented as part of the University of Kansas Department of Anthropology Distinguished Lecture Program on Anthropological Genetics Consecutively each contributor spent approximately a week on the campus at Lawrence participating in a seminar The contributors to this volume were not on campus at one time but visited us on alternating weeks hence a symposium type interchange was not possible between all participants However the students and faculty of Kansas University acted as a sounding board This volume can be considered a companion and continuation of *Methods and Theories of Anthropological Genetics* which was based upon a symposium on the state of the art in 1971 This present volume reflects what we consider to be some of the advances and current developments in anthropological genetics since 1973 Emphasis has shifted to some degree away from population structure analysis as depicted in Crawford and Workman to genetic epidemiology However population structure still remains a fertile and ongoing area of research with many theoretical questions still remaining unanswered **The People Of The Colca Valley** David Noble Cook, Noble D Cook, 2022-02-23 While it now attracts many tourists the Colca Valley of Peru's southern Andes was largely isolated from the outside world until the 1970s when a passable road was built linking the valley and its colonial churches terraced hillsides and deep canyon to the city of Arequipa and its airport eight hours away Noble David Cook and his co-researcher Alexandra Parma Cook have been studying the Colca Valley since 1974 and this detailed ethnohistory reflects their decades long engagement with the valley its history and its people Drawing on unusually rich surviving documentary evidence they explore the cultural transformations experienced by the first three generations of Indians and Europeans in the region following the Spanish conquest of the Incas **Population Structure and Human Variation** G. A. Harrison, 1977-08-11 This volume is a collection of eleven studies conducted during the International Biological Programme on the biological structure of human populations **Dictionary of Daily Life of Indians of the Americas**, 1981-01-01 The Biology of High-Altitude Peoples Paul T. Baker, 1978-04-13 Analyzes the biology of the various groups of people who live at high altitudes
