The O'Rourke's An Toiseach The Beginning:

Hell at the Gates: John Lee, Daniel McConnell, 2016-10-14 On 28 November 2010 the Irish government infamously agreed to a bailout from the Troika to save Ireland's failing economy. This decision had huge and long-lasting social implications for Ireland and her people and led to the annihilation of Fianna Fáil and its allies in the 2011 general election. In *Hell at the Gates* Brian Cowen, the late Brian Lenihan, Eamon Ryan, Micheál Martin, Mary Harney and many others recount for the first time in their own words the inside story behind the actions of the most hated government in living memory. The result is a deeply honest, intensely personal and revealing account of their experiences in the white heat of an economic meltdown. It reveals the extent to which Cowen and Lenihan's relationship disintegrated, how members of the government were physically attacked by the public and also gives the definitive account by Micheál Martin himself of why he chose in early 2011 to move against his embattled leader. As Mary O'Rourke said of those days: 'There was drama, tragedy, pathos, comedy, farce, love and death. It was like a Shakespearean drama.' John Lee and Daniel McConnell have interviewed the people who were at the coalface of this drama to produce a gripping account of those fateful days in and around Leinster House.

The History of the Irish Famine Christine Kinealy, Jason King, Gerard Moran, 2020-06-04 The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland socially, politically, demographically and culturally. In the space of only four years, Ireland lost twenty-five per cent of its population as a consequence of starvation, disease and large-scale emigration. Certain aspects of the Famine remain contested and controversial, for example the issue of the British government's culpability, proselytism and the reception of emigrants. However, recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis both before 1845 and after 1852. The narratives of those who perished, those who survived and those who emigrated form an integral part of this history and these volumes will make available for the first time some of the original documentation relating to an event that changed not only Irish history but the history of the countries to which the emigrants fled: Britain, the United States, Canada and Australia. By bringing together letters, government reports, diaries, official documents, pamphlets, newspaper articles, sermons, eye-witness testimonies, poems and novels, these volumes will provide a fresh way of understanding Irish history in general and famine and migration in particular. Comprehensive editorial apparatus and annotation of the original texts are included along with bibliographies, appendices, chronologies and indexes that point the way for further study.
